The Company

General

We are a brand management company engaged in the design, licensing, marketing and retail sales of consumer brands, including “Isaac Mizrahi New York”, Isaac Mizrahi” and “IsaacMizrahiLIVE” (collectively, the “Isaac Mizrahi Brands”), certain rights of the Liz Claiborne New York brand (“LCNY”) and the Judith Ripka brand (the “Ripka Brand”) which we acquired on April 3, 2014. The Company operates in two segments - (1) our Design and Licensing Business and (2) our Retail Business (each as defined below).

Our Design and Licensing business operates in a “working capital light” business model, wherein we license our brands to third parties, provide certain design services, and generate royalty and design and service fee revenues through licensing and other agreements with wholesale manufacturers, sourcing and design companies, and retailers. This includes licensing our own brands for promotion and distribution through an Omnichannel retail sales strategy including distribution through Direct-Response Television (i.e. QVC, Inc. (“QVC”) and The Shopping Channel), the internet, and traditional bricks-and-mortar retail channels (“Wholesale Licenses”). The Company believes that this strategy distinguishes it from other brand management companies that rely solely on its licensees for all distribution. The Isaac Mizrahi Brand and LCNY brand are licensed through our wholly-owned subsidiary IM Brands (the “Isaac Mizrahi Business”) and the Ripka Brand is licensed through our wholly-owned subsidiary, JR Licensing (the “Ripka Business” and, together with the Isaac Mizrahi Business, the “Design and Licensing Business”).

The Company’s retail business operates through its wholly-owned subsidiary, IMNY Retail Management, LLC (“Retail Management”), and was launched in June 2013 opening the Company’s first retail store located in Southampton, New York (the “Retail Business”). The Company opened its second retail store, an outlet store, located near Atlanta, GA, on March 2, 2014. Also, Retail Management plans to launch an e-commerce platform later in 2014.

On April 3, 2014 JR Licensing entered into an asset purchase agreement dated April 1, 2014 (the “Purchase Agreement”) with Judith Ripka Berk (“Ms. Ripka”), an individual, and certain companies owned by Ms. Ripka including Judith Ripka Creations (collectively “Ripka”), pursuant to which JR Licensing purchased from Ripka certain assets (the “Ripka Assets”), including the “Judith Ripka” and Judith Ripka Sterling trademarks and other intellectual property rights related to the Judith Ripka brand (the “Ripka Brand”). On the closing date of the acquisition, the Company paid Ripka \$12.0 million in cash, \$6.0 million through the issuance of interest free notes payable (the “Ripka Notes”), and 571,429 shares of the Company’s common stock. The Company is obligated to pay Ripka an additional \$1.0 million on October 1, 2014 and an additional \$1.2 million on April 1, 2015. In addition Ripka is eligible to receive additional consideration of up to \$5 million (the “Ripka Earn-out”), payable in cash or shares of the Company’s common stock based on the fair market value of our common stock at the time of payment. Concurrent with the acquisition of the Ripka Assets, the Company entered into (i) a license agreement with QVC for the Ripka Brand that provides for a royalty to be paid to the Company by QVC based on net sales of products under the Ripka Brand by QVC (the “JR/QVC Agreement”), and (ii) a license with an affiliate of Ripka that will design, source, market, and promote products under the Ripka Brand to wholesale accounts, through an e-commerce site which Xcel will operate, and through Ripka owned retail stores (the “JR Wholesale Business”). The Company entered into an employment agreement with Ms. Ripka (the “JR Employment Agreement”) for her to design jewelry for the Company and make in-store appearances and otherwise promote the Ripka Brand through social media, television including QVC and The Shopping Channel and other media. Also concurrent with the acquisition of the Ripka Assets, JR Licensing entered into a \$9 million 5-year term loan with Bank Hapoalim B.M. (“BHI”) (the “JR Loan”).

RISK FACTORS

An investment in our securities involves a high degree of risk. You should carefully consider the risks described below together with all of the other information included in this prospectus before making an investment decision with regard to our securities. The statements contained in or incorporated herein that are not historic facts are forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those set forth in or implied by forward-looking statements. For further information see “Cautionary Statement Regarding Forward-Looking Statements.” If any of the following risks actually occurs, our business, financial condition or results of operations could be harmed. In that case, you may lose all or part of your investment.

Risks Related to Our Business

We have a limited amount of cash to grow our operations. If we cannot obtain additional sources of cash, our growth prospects and future profitability may be materially adversely affected and we may not be able to implement our business plan. Such additional financing may not be available on satisfactory terms or it may not be available when needed, or at all.

As of December 31, 2013, we had cash and cash equivalents of approximately \$7.5 million. Although we believe that our existing cash and our anticipated cash flow from operations will be sufficient to sustain our operations, at our current expense levels, for at least the following 12 months, we may require significant additional cash to expand our operations, open retail stores or acquire additional brands. Our inability to finance our growth, either internally or externally, may limit our growth potential and our ability to execute our business strategy. If we issue securities to raise capital to finance operations and/or pay down debt, our existing stockholders may experience dilution or the new securities may have rights senior to those of our common stock.

We have a limited operating history and our historical operations were conducted as part of a larger, more diverse business.

Although the Isaac Mizrahi brand name has been an established brand for over 20 years, (i) the license agreement related to the IM Trademarks with QVC (the “QVC Agreement”) and (ii) the design agreement with Kate Spade and Company (“KSC”) (formerly Fifth & Pacific Companies, Inc. and formerly Liz Claiborne, Inc.) to design the “Liz Claiborne New York” brand (the “LCNY Brand”) relate to businesses at QVC that have been operating only since December 2009, and the Isaac Mizrahi Business was run by Isaac Mizrahi, our Chief Designer, and Marisa Gardini, a Director of the Company. Certain other members of our management performed consulting services for IM Ready-Made, LLC, but were not responsible for its operations. Since we acquired the Isaac Mizrahi Business we have substantially expanded our business through operations in which we had not previously engaged; we have entered into additional licenses for the Isaac Mizrahi Brands, many such licensees have not yet sold licensed products under the Isaac Mizrahi Brands or have only started selling licensed products under the Isaac Mizrahi Brands in 2012; started the Retail Business, through the opening of our retail stores and intend to launch our e-commerce site; and acquired the Ripka Assets and begun licensing the Ripka Brand.

Since we just acquired the Ripka Brand on April 1, 2014, we have no experience operating and managing the Ripka Brand. Operating the Ripka Brand will require the expenditure of a significant amount of our time and resources and could negatively impact our results of operations.

Accordingly, the operating results of the Company are not necessarily indicative of the future and you should not place undue reliance on our past performance.

The failure of our licensees to adequately produce, market and sell products bearing our brand names in their license categories or to pay their obligations under their license agreements could result in a decline in our results of operations and impact our ability to service our debt obligations.

Our revenues are dependent on payments made to us under our licensing agreements. Although the licensing agreements for our brands typically require the advance payment to us of a portion of the licensing fees and in many cases provide for guaranteed minimum royalty payments to us, the failure of our licensees to satisfy their obligations under these agreements or their inability to operate successfully or at all, could result in their breach and/or the early termination of such agreements, their non-renewal of such agreements or our decision to amend such agreements to reduce the guaranteed minimums or sales royalties due thereunder, thereby eliminating some or all of that stream of revenue. Moreover, during the terms of the license agreements, we are substantially dependent upon the abilities of our licensees to maintain the quality and marketability of the products bearing our trademarks, as their failure to do so could materially tarnish our brands, thereby harming our future growth and prospects. In addition, the failure of our licensees to meet their production, manufacturing and distribution requirements could cause a decline in their sales and potentially decrease the amount of royalty payments (over and above the guaranteed minimums) due to us. A weak economy or softness in the apparel and retail sectors could exacerbate this risk. This, in turn, could decrease our potential revenues. Moreover, the concurrent failure by several of our material licensees to meet their financial obligations to us could jeopardize our ability to meet the debt service coverage ratios required in connection with our debt facility or facilities. Further, this failure may impact our ability to make required payments with respect to such indebtedness. The failure to meet such debt service coverage ratios or to make such required payments may give the lenders thereunder the right to foreclose on the Company’s trademarks, license agreements, and other related assets securing such notes.

Our business is dependent on continued market acceptance of our brands and any future brands we acquire and the products of our licensees.

Although many of our licensees guarantee minimum net sales and minimum royalties to us, many of our licensees are not yet selling licensed products or currently have limited distribution of licensed products and a failure of our brands or of products bearing our brands to achieve or maintain market acceptance could cause a reduction of our licensing revenues and could further cause existing licensees not to renew their agreements. Such failure could also cause the devaluation of our trademarks, which are our primary assets, making it more difficult for us to renew our current licenses upon their expiration or enter into new or additional licenses for our trademarks. In addition, if such devaluation of our trademarks were to occur, a material impairment in the carrying value of one or more of our trademarks could also occur and be charged as an expense to our operating results. Continued market acceptance of the Isaac Mizrahi Brands and our licensees' products, as well as market acceptance of any future products bearing any future brands we acquire, is subject to a high degree of uncertainty, made more so by constantly changing consumer tastes and preferences. Creating and maintaining market acceptance of our licensees' products and creating market acceptance of new products and categories of products bearing our marks may require substantial marketing efforts, which may, from time to time, also include our expenditure of significant additional funds to keep pace with changing consumer demands, which funds we may or may not have available to spend. Additional marketing efforts and expenditures may not, however, result in either increased market acceptance of, or additional licenses for, our trademarks or increased market acceptance, or sales, of our licensees' products. Furthermore, while we believe that we currently maintain sufficient control over the products our licensees' produce under our brand names through the provision of trend direction and our right to preview and approve a majority of such products, including their presentation and packaging, we do not actually design or manufacture all of the products bearing our marks and therefore have more limited control over such products' quality and design than a traditional product manufacturer might have.

Our debt obligations could impair our liquidity and financial condition, and in the event we are unable to meet our debt obligations we could lose title to our trademarks and/or other assets.

On August 1 2013, we entered into a five-year senior secured term facility (the "New Loan") with BHI pursuant to which we incurred \$13.0 million principal amount of senior secured term debt, which refinanced a senior secured term debt with MidMarket Capital Partners (the "Old Loan") that we entered into in connection with our acquisition of the Isaac Mizrahi Business in 2011. In addition, we issued to IM Ready a note in connection with our acquisition of the Isaac Mizrahi Business (the "Seller Note"), subject to adjustment as set forth herein and our ability to pay the Seller Note in shares of our common stock, which we paid down by \$1,500,000 of cash in 2013 resulting in a balance of \$5,877,000, that includes imputed interest, as of December 31, 2013. The principal amount of the Seller Note is payable \$1,500,000 in cash, of which \$1 million is subject to BHI's consent and the balance in cash or our common stock, at the Company's sole discretion. We have contingent obligations of \$6.7 million that may be payable to IM Ready in September 2015, \$0.3 million of which is payable in cash, \$2.8 million is payable in cash or shares of our common stock, at the Company's sole discretion and \$3.6 million is payable with shares of our common stock. The \$0.3 million cash obligation was paid in March 2014. In conjunction with the acquisition of the Ripka Brand, we entered into the \$9 million JR Loan with BHI. In addition, we are obligated to pay Ripka an additional \$1.0 million on October 1, 2014 and an additional \$1.2 million on April 1, 2015. We also have contingent obligations of up to \$5 million that may be payable to Ripka payable in cash or common stock at our sole discretion. The Company may also assume or incur additional debt, including secured debt, in the future in connection with, or to fund, future acquisitions or other operating needs.

Our debt obligations:

- could impair our liquidity;
- could make it more difficult for us to satisfy our other obligations;

- require us to dedicate a substantial portion of our cash flow to payments on our debt obligations, which reduces the availability of our cash flow to fund working capital, capital expenditures and other corporate requirements;
- could impede us from obtaining additional financing in the future for working capital, capital expenditures, acquisitions and general corporate purposes;
- impose restrictions on us with respect to the use of our available cash, including in connection with future transactions;
- make us more vulnerable in the event of a downturn in our business prospects and could limit our flexibility to plan for, or react to, changes in our licensing markets; and
- could place us at a competitive disadvantage when compared to our competitors who have less debt.

While we believe that by virtue of the guaranteed minimum and percentage royalty payments due to us under certain of our licenses, we will generate sufficient revenues from our Design and Licensing Business to satisfy our obligations for the foreseeable future, in the event that we were to fail in the future to make any required payment under agreements governing our indebtedness or fail to comply with the financial and operating covenants contained in those agreements, we would be in default regarding that indebtedness and the lenders could declare such indebtedness to be immediately due and payable. Termination of the QVC Agreement or the JR/QVC Agreement would result in a default under the New Loan and JR Loan. A debt default could significantly diminish the market value and marketability of our common stock and could result in the acceleration of the payment obligations under all or a portion of our consolidated indebtedness, or a renegotiation of our Loan with more onerous terms and/or additional equity dilution. It may also enable our senior lender or lenders to foreclose on the Company's assets and/or our membership interests in IM Brands and JR Licensing, which combined currently constitutes substantially all of intangible assets.

We expect to achieve growth based upon our plans to expand the Isaac Mizrahi Business, develop our Retail Business and integrate the Ripka Business. If we fail to manage our expected future growth, our business and operating results could be harmed.

We project growth in the Isaac Mizrahi Business based upon growing the business of our Wholesale Licensees for the Isaac Mizrahi Brands, engaging additional wholesale licensees or partners for the Isaac Mizrahi Brands, opening retail stores and an e-commerce site under the Isaac Mizrahi Brands, and projected growth of the IsaacMizrahiLIVE business with QVC and The Shopping Channel, and we project to grow the LCNY Business on QVC.

The Ripka Assets, which historically have been focused on fine jewelry, help diversify our industry focus (the Isaac Mizrahi Brand and LCNY Brand have a core business in fashion and accessories), while at the same time complementing, expanding on and growing our overall business relationship with QVC.

In addition, we will also seek new opportunities including opening additional retail stores and international expansion through direct response television and licensing arrangements.

The success of our Company, however, will still remain largely dependent on our ability to build and maintain our brands awareness and contract with and retain key licensees and on our licensees' ability to accurately predict upcoming fashion and design trends within their respective customer bases and fulfill the product requirements of their particular retail channels within the global marketplace.

This expected growth will place considerable demands on our management and other resources. Our ability to compete effectively and to manage future growth, if any, will depend on the sufficiency and adequacy of our current resources and infrastructure and our ability to continue to identify, attract and retain personnel to manage our brands and integrate any brands we may acquire, including the Ripka Brand, into our operations. There can be no assurance that our personnel, systems, procedures and controls will be adequate to support our operations and properly oversee our brands. The failure to support our operations effectively and properly oversee our brands could cause harm to our brands and have a material adverse effect on their fair values and our business, financial condition and results of operations. In addition, we may be unable to leverage our core competencies in managing apparel brands to managing brands in new product categories.

Also, there can be no assurance that we will be able to achieve and sustain meaningful growth. Our growth may be limited by a number of factors including increased competition among branded products at bricks-and-mortar, internet, and direct-response retailers, decreased airtime on QVC and/or The Shopping Channel, competition for retail license and brand acquisitions, insufficient capitalization for future transactions.

If we are unable to identify and successfully acquire additional trademarks, our growth may be limited, and, even if additional trademarks are acquired, we may not realize anticipated benefits due to integration or licensing difficulties.

While the Company is focused on growing the Isaac Mizrahi Brands, Ripka Brand and LCNV Brand, the Company may seek to acquire additional intellectual property. We will continue to explore new acquisitions. However, as our competitors continue to pursue a brand management model, acquisitions may become more expensive and suitable acquisition candidates could become more difficult to find. In addition, even if we successfully acquire additional intellectual property or the rights to use additional intellectual property, we may not be able to achieve or maintain profitability levels that justify our investment in, or realize planned benefits with respect to, those additional brands.

Although we will seek to temper our acquisition risks by following acquisition guidelines relating to the purchase price and valuation, projected returns, existing strength of the brand, its diversification benefits to us, its potential licensing scale and creditworthiness of licensee base, acquisitions, whether they be of additional intellectual property assets or of the companies that own them, entail numerous risks, any of which could detrimentally affect our results of operations and/or the value of our equity. These risks include, among others:

- unanticipated costs associated with the target acquisition;
- our ability to identify appropriate business opportunities, including potential licenses and new product lines and markets;
- negative effects on reported results of operations from acquisition related charges and amortization of acquired intangibles;
- diversion of management's attention from other business concerns;
- the challenges of maintaining focus on, and continuing to execute, core strategies and business plans as our brand and license portfolio grows and becomes more diversified;
- adverse effects on existing licensing and other relationships;
- potential difficulties associated with the retention of key employees, and difficulties, delays and unanticipated costs associated with the assimilation of personnel, operations and systems, which may be retained by us in connection with or as a result of our acquisitions; and
- risks of entering new domestic and international markets (whether it be with respect to new licensed product categories or new licensed product distribution channels) or markets in which we have limited prior experience.
- increased concentration in our revenues with one or more customers in the event that the brand has distribution channels in which we currently distribute products under one or more of our brands.

When we acquire intellectual property assets (including the assets relating to the Ripka Brand) or the companies that own them, our due diligence reviews are subject to inherent uncertainties and may not reveal all potential risks. We may therefore fail to discover or inaccurately assess undisclosed or contingent liabilities, including liabilities for which we may have responsibility as a successor to the seller or the target company. As a successor, we may be responsible for any past or continuing violations of law by the seller or the target company. Although we will generally attempt to seek contractual protections through representations, warranties and indemnities, we cannot be sure that we will obtain such provisions in our acquisitions or that such provisions will fully protect us from all unknown, contingent or other liabilities or costs. Finally, claims against us relating to any acquisition, including the acquisition of the Ripka Assets, may necessitate our seeking claims against the seller for which the seller may not, or may not be able to, indemnify us or that may exceed the scope, duration or amount of the seller's indemnification obligations.

Acquiring additional intellectual property could also have a significant effect on our financial position and could cause substantial fluctuations in our quarterly and yearly operating results. Acquisitions could result in the recording of significant goodwill and intangible assets on our financial statements, the amortization or impairment of which would reduce our reported earnings in subsequent years. No assurance can be given with respect to the timing, likelihood or financial or business effect of any possible transaction. Moreover, as discussed below, our ability to grow through the acquisition of additional intellectual property will also depend on the availability of capital to complete the necessary acquisition arrangements. In the event that we are unable to obtain debt financing on acceptable terms for a particular acquisition, we may elect to pursue the acquisition through the issuance by us of shares of our common stock (and, in certain cases, convertible securities) as equity consideration, which could dilute our common stock because it could reduce our earnings per share, and any such dilution could reduce the market price of our common stock unless and until we were able to achieve revenue growth or cost savings and other business economies sufficient to offset the effect of such an issuance. As a result, there is no guarantee that our stockholders will achieve greater returns as a result of the acquisition of the Ripka Assets or any future acquisitions we complete.

Because of the intense competition within our existing and potential wholesale licensees' markets and the strength of some of their competitors, we and our licensees may not be able to continue to compete successfully.

We expect our existing and future licenses to relate to products in the apparel, fashion accessories, jewelry, footwear, beauty and fragrance, home products and décor, pet products, fabrics and yarns, and other consumer industries, in which our licensees face intense competition, including from our other brands and licensees. In general, competitive factors include quality, price, style, name recognition and service. In addition, various fads and the limited availability of shelf space could affect competition for our licensees' products. Many of our licensees' competitors have greater financial, distribution, marketing and other resources than our licensees and have achieved significant name recognition for their brand names. Our licensees may be unable to successfully compete in the markets for their products, and we may not be able to continue to compete successfully with respect to our licensing arrangements.

If our competition for licenses increases, or any of our current licensees elect not to renew their licenses or renew on term less favorable than today, our growth plans could be slowed.

We may face increasing competition in the future for licenses as other companies owning brands may decide to enter into licensing arrangements with licensees, retailers or interactive media companies similar to the ones we currently have in place. Furthermore, our current or potential licensees may decide to develop or purchase brands rather than renew or enter into license agreements with us. In addition, this increased competition could result in lower sales of products offered by our licensees under our brands. If our competition for licenses increases, it may take us longer to procure additional licenses which could slow our growth rate.

Our licensees are subject to risks and uncertainties of foreign manufacturing and the price, availability and quality of raw materials that could interrupt their operations or increase their operating costs, thereby affecting their ability to deliver goods to the market, reduce or delay their sales and decrease our potential royalty revenues.

Substantially all of the products sold by our licensees are manufactured overseas. There are substantial risks associated with foreign manufacturing, including changes in laws relating to quotas, and the payment of tariffs and duties, fluctuations in foreign currency exchange rates, shipping delays and international political, regulatory and economic developments. Further, our licensees may experience fluctuations in the price, availability and quality of fabrics, precious metals, gems and other raw materials used by them in their manufactured products or purchased finished goods. Any of these risks could increase our licensees' operating costs. Our licensees also import finished products and assume all risk of loss and damage with respect to these goods once they are shipped by their suppliers. If these goods are destroyed or damaged during shipment, the revenues of our licensees, and thus our royalty revenues over and above the guaranteed minimums, could be reduced as a result of our licensees' inability to deliver or their delay in delivering their products.

Our failure to protect our proprietary rights could compromise our competitive position and decrease the value of our brands.

We own, through our wholly-owned subsidiaries, various U.S. federal trademark registrations and foreign trademark registrations for our brands that are vital to the success and further growth of our business and which we believe have significant value. We will monitor, on an ongoing basis, unauthorized filings of our trademarks and imitations thereof, and rely primarily upon a combination of trademarks, copyrights and contractual restrictions to protect and enforce our intellectual property rights domestically and internationally. We believe that such measures afford only limited protection and, accordingly, there can be no assurance that the actions taken by us to establish protect and enforce our trademarks and other proprietary rights will prevent infringement of our intellectual property rights by others, or prevent the loss of licensing revenue or other damages caused therefrom.

For instance, despite our efforts to protect and enforce our intellectual property rights, unauthorized parties may attempt to copy aspects of our intellectual property, which could harm the reputation of our brands, decrease their value and/or cause a decline in our licensees' sales and thus our revenues. Further, we and our licensees may not be able to detect infringement of our intellectual property rights quickly or at all, and at times, we or our licensees may not be successful in combating counterfeit, infringing or knockoff products, thereby damaging our competitive position. In addition, we depend upon the laws of the countries where our licensees' products are sold to protect our intellectual property. Intellectual property rights may be unavailable or limited in some countries because standards of registerability vary internationally. Consequently, in certain foreign jurisdictions, we have elected or may elect not to apply for trademark registrations. While we generally apply for trademarks in most countries where we license or intend to license our trademarks, we may not accurately predict all of the countries where trademark protection will ultimately be desirable. If we fail to timely file a trademark application in any such country, we may be precluded from obtaining a trademark registration in such country at a later date. Failure to adequately pursue and enforce our trademark rights could damage our brands, enable others to compete with our brands and impair our ability to compete effectively.

In addition, in the future, we may be required to assert infringement claims against third parties or more third parties may assert infringement claims against us. Any resulting litigation or proceeding could result in significant expense to us and divert the efforts of our management personnel, whether or not such litigation or proceeding is determined in our favor. In addition, to the extent that any of our trademarks were ever deemed to violate the proprietary rights of others in any litigation or proceeding or as a result of any claim, we may be prevented from using them, which could cause a termination of our licensing arrangements, and thus our revenue stream, with respect to those trademarks. Litigation could also result in a judgment or monetary damages being levied against us.

A substantial portion of our licensing revenue is concentrated with a limited number of licensees such that the loss of any of such licensees could decrease our revenue and impair our cash flows.

A substantial portion of the Company's revenues have been paid by QVC, either through the Company's existing license agreement with QVC for the "IsaacMizrahiLIVE" brand or through the Design Agreement with QVC related to the design of the LCNy Brand (the "Design Agreement"). Commencing with the JR/QVC Agreement, an additional portion of the Company's revenues will come from QVC. Because we are dependent on these agreements with QVC for a significant portion of our revenue, if QVC were to have financial difficulties, or if QVC decides not to renew or extend its existing agreements with us, our revenue and cash flows could be reduced substantially. Additionally, we have limited control over the programming that QVC devotes to our brands or its promotional sales with our brands (such as "Today's Special Value" sales). If QVC reduces or modifies its programming or promotional sales related to our brands, our revenues and cash flows could be reduced substantially.

The current term of the QVC Agreement, which was renewed on July 2, 2013, expires on September 30, 2020, with automatic one-year renewal periods thereafter unless terminated by either party. The current term of the Design Agreement, which was renewed on January 28, 2013, expires on July 31, 2016 and provides for four one-year renewal periods. The current term of the current JR/QVC Agreement expires on March 31, 2019.

There can be no assurance that the agreements will be renewed upon expiration of the current terms or that QVC will not terminate our licensing agreement or its agreement with KSC for non-performance.

While our business with QVC has seen growth since the Isaac MizrahiLive and LCNy Brands were launched in 2009 and 2010, respectively, there is no guarantee that they will continue to grow in the future. We also have no operating history with our Ripka Brand. Additionally, while we have entered into additional Wholesale Licenses and a license agreement with The Shopping Channel for the Isaac Mizrahi Brands and Ripka Brand in order to diversify and grow our revenues, there are no guarantees that our other licensees will be able to generate sales of products under our brands or grow their existing sales of products under our brands, and if they do generate sales, there is no guarantee that they will not cause a decline in sales of products being sold through QVC.

The QVC Agreement and JR/QVC Agreement restricts us from selling their respective branded products with certain retailers or IsaacMizrahiLIVE branded products and Judith Ripka branded products sold by third parties in certain territories, which provides QVC with a right to terminate the respective agreement if we breach these provisions.

Although all of our Wholesale Licenses prohibit the sale of products under the Isaac Mizrahi Brands and Ripka Brands to these restricted retailers, and our license agreements with other direct-response television companies prohibits the sale of products under the IsaacMizrahiLIVE brand and Judith Ripka brand outside of certain approved territories, one or more of our licensees could sell to a restricted retailer or territory, putting us in breach of our QVC Agreement or JR/QVC Agreement and exposing us to termination by QVC. A breach of either these agreements could result in QVC seeking monetary damages, seeking an injunction against us and our other licensees and/or terminate the respective agreement that could have a material adverse effect on the Company's net income and cash flows.

We are dependent upon our Chief Executive Officer and other key executives. If we lose the services of these individuals we may not be able to fully implement our business plan and future growth strategy, which would harm our business and prospects.

Our success as a marketer and licensor of intellectual property is largely dependent upon the efforts of Robert W. D'Loren, our Chief Executive Officer and Chairman of the Board of Directors. Our continued success is largely dependent upon his continued efforts and those of our other key executives. Although we entered into an employment agreement with Robert D'Loren, as well as employment agreements with other of our key executives and employees, including Isaac Mizrahi and Judith Ripka, there is no guarantee that we will not lose the services of our executive officers or key employees. To the extent that any of their services become unavailable to us, we will be required to hire other qualified executives, and we may not be successful in finding or hiring adequate replacements. This could impede our ability to fully implement our business plan and future growth strategy, which would harm our business and prospects. In addition, BHI requires that Robert W. D'Loren is the Chairman of the Board of Directors of the Company. The failure of Mr. D'Loren to continue in his duties as Chairman of the Company's Board of Directors would result in a default under the Old Loan and New Loan.

We are dependent upon the promotional services of Isaac Mizrahi as it relates to the Isaac Mizrahi brand.

If we lose the services of Isaac Mizrahi, we may not be able to fully comply with the terms of our license agreements with QVC and The Shopping Channel or our design agreements with KSC and QVC and it may result in significant reductions in the value of the Isaac Mizrahi Brands and our prospects, revenues and cash flows. Isaac Mizrahi is a key individual in our continued promotion of the Isaac Mizrahi Brands and the principal salesperson of the Isaac Mizrahi brands on QVC and The Shopping Channel. Failure of Isaac Mizrahi to provide services to QVC could result in a termination of the QVC Agreement which could trigger an event of default under the New Loan. Although we have entered into an employment agreement with Mr. Mizrahi and he is a significant shareholder of the Company, there is no guarantee that we will not lose his services. To the extent that any of Mr. Mizrahi's services become unavailable to us, we will likely need to find a replacement to Mr. Mizrahi to promote the Isaac Mizrahi Brands. Competition for skilled designers or brand promoters is intense, and compensation levels may be high, and there is no guarantee that we would be able to identify and attract a qualified replacement, or if Mr. Mizrahi's services are not available to us, that we would be able to promote the Isaac Mizrahi Brands as well as we are able to with Mr. Mizrahi. This could significantly affect the value of the Isaac Mizrahi Brands and our ability to market the brands, and could impede our ability to fully implement our business plan and future growth strategy, which would harm our business and prospects. Additionally, while we acquired all trademarks, image, and likeness of Isaac Mizrahi, pursuant to the acquisition of the Isaac Mizrahi Business and his employment agreement, Mr. Mizrahi has retained certain rights to participate in outside business activities, including hosting and appearing in television shows, movies and theater productions, and writing and publishing books and other publications. Mr. Mizrahi's participation in these personal business ventures could limit his availability to us and affect his ability to perform under this employment agreement. Finally, there is no guarantee that Mr. Mizrahi will not take an action that the consumer views as negative, which may harm the Isaac Mizrahi Brands as well as our business and prospects.

We are dependent upon the promotional services of Judith Ripka as it relates to the Ripka brand.

If we lose the services of Judith Ripka, we may not be able to fully comply with the terms of our license agreements with QVC and The Shopping Channel and it may result in significant reductions in the value of the Ripka Brand and our prospects, revenues and cash flows. Judith Ripka is a key individual in our continued promotion of the Ripka Brand and the principal salesperson of the Judith Ripka Brand on QVC and The Shopping Channel. Failure of Judith Ripka to provide services to QVC or a breach of any representations, warranties or covenants by Judith Ripka under the JR/QVC Agreement could result in a termination of the JR/QVC Agreement which could trigger an event of default under the JR Loan. Although we have entered into an employment agreement with Ms. Ripka and she is a shareholder of the Company, there is no guarantee that we will not lose her services. To the extent that any of Ms. Ripka's services become unavailable to us, we will likely need to find a replacement to Ms. Ripka to promote the Ripka Brand. Competition for skilled designers or brand promoters is intense, and compensation levels may be high, and there is no guarantee that we would be able to identify and attract a qualified replacement, or if Ms. Ripka's services are not available to us, that we would be able to promote the Ripka Brand as well as we are able to with Ms. Ripka. This could significantly affect the value of the Ripka Brand and our ability to market the brands, and could impede our ability to fully implement our business plan and future growth strategy, which would harm our business and prospects. Additionally, while we acquired all trademarks, image, and likeness of Judith Ripka, pursuant to the acquisition of the Ripka Brand and her employment agreement, Ms. Ripka has retained certain rights to participate in outside business activities, including hosting and appearing in television shows, movies and theater productions, and writing and publishing books and other publications. Ms. Ripka's participation in these personal business ventures could limit her availability to us and affect her ability to perform under this employment agreement. Finally, there is no guarantee that Ms. Ripka will not take an action that the consumer views as negative, which may harm the Ripka Brand as well as our business and prospects.

The termination of agreements related to design and other services would decrease our expected revenues and cash flows.

The Company provides design and other services for fixed or agreed upon fees. If the Company fails to perform these services or if these service agreements were terminated or not renewed, our expected revenues and cash flows would decrease.

The LCNY Agreement could be terminated by KSC and/or QVC in the event that QVC or KSC decides not to renew its licensing agreement with respect to the LCNY Brand, or if we were to lose the services of Isaac Mizrahi as the designer with respect to LCNY Brand branded products, thereby decreasing our expected revenues and cash flows.

We currently have the LCNY Agreement in place with KSC, pursuant to which the Company, designs the LCNY Brand line to be sold on QVC in exchange for the Company receiving a percentage of the royalties that KSC receives from QVC under a separate license agreement between KSC and QVC (the LCNY Agreement). Under the LCNY Agreement, Isaac Mizrahi is also required to promote the LCNY Brand on QVC as requested by QVC. Mr. Mizrahi does not currently promote the brand on QVC, but QVC may request that Mr. Mizrahi promote the brand in the future. The LCNY Agreement is co-terminous with the license agreement between KSC and QVC, which has a current term through July 31, 2016. There is no guarantee that KSC or QVC will renew the agreement past the Initial Renewal Term, which would impair our revenues and cash flows. Additionally, KSC has the right at its option to terminate the LCNY Agreement with us if the services of Isaac Mizrahi as designer for LCNY Brand products are no longer available to KSC and we do not agree upon a replacement designer. Although we have entered into an employment agreement with Mr. Mizrahi, there can be no assurance that if his services are required by KSC he will provide such services or that in the event we, and thus QVC, were to lose the ability to draw on such services, KSC would continue its design agreement with us. The loss of the LCNY Agreement would significantly decrease our expected revenues and cash flows until we were able to enter into one or more replacement agreements

Prior to opening our first two retail stores, we had no history of operating a retail business; and the Retail Business may not become profitable.

In June 2013 we opened our first retail store and in March 2014 we opened our second retail store under the Retail Business. For the year ended December 31, 2013 our Retail Business generated a \$339,000 operating loss, had negative cash flow from operations of \$332,000 and currently accounts for a nominal percentage of the net revenues of the Company. There is no assurance that these stores can operate profitably or will not have a negative effect on our earnings or cash flow. In addition, opening additional stores will require capital expenditures and could expose us to long-term lease obligations. The failure to operate the Retail Business profitably, combined with the capital expenditures and long-term lease obligations, could have a negative impact on the Company's operating results, cash flows and financial position.

Our reliance on third-party licensees for our retail and internet stores could have a negative impact on the availability of merchandise, margins, and operating results of our Retail Business.

We do not own or operate any manufacturing facilities and depend on our licensees and other independent vendors to manufacture our merchandise ("Product Vendors"). We are at risk for increases in manufacturing costs and we cannot be certain that we will not experience operational difficulties with our Product Vendors, such as reductions in the availability of production capacity, errors in complying with merchandise specifications, insufficient quality control and failure to meet production deadlines. In addition, we source our merchandise from a select group of Product Vendors and we continue to strengthen our relationships with these key licensees. While this strategy has benefits, it also has risks. While we have entered into sourcing agreements with our key Product Vendors that generally allow us to source product from other vendors, if one or more of our key Product Vendors were to cease working with us or is unable to supply our Retail Business from a timing, quality, or price standpoint, the flow of merchandise to our stores could be impacted, which could have a material adverse effect on our sales, margins, and results of operations in our Retail Business. This could also cause supply shortages, failure to meet client expectations and damage to our brands.

We may have difficulty managing our inventory for our Retail Business and/or merchandise mix.

The long lead times required for a substantial portion of the merchandise sold in our retail stores and e-commerce site make client demand difficult to predict and responding quickly to changes challenging. Though we have the ability to source certain product categories with shorter lead times from our licensees, we submit purchase orders for a substantial portion of our retail merchandise well in advance of the applicable selling season. Our Retail Business could be materially adversely affected if we are unable to manage inventory levels and respond to short-term shifts in client demand patterns, that could have a materially adverse effect on our results of operations and financial position. In addition, our multi-channel fulfillment strategy, which aims to help optimize merchandising decisions, improve client service and support our multi-channel operations, creates additional complexities in our ability to manage inventory levels. Inventory levels in excess of client demand may result in excessive markdowns and, therefore, lower than planned gross margin. On the other hand, if we underestimate demand for our merchandise, we may experience inventory shortages resulting in missed sales and lost revenues in our Retail Business. Either of these events could significantly affect our operating results and brand image. In addition, our margins may be impacted by changes in our merchandise mix and a shift toward merchandise with lower selling prices. These changes could have a material adverse effect on our operating results.

Our Retail Business directly competes with certain of our wholesale licensees' customers.

We plan to sell the same products through our retail stores and internet website as our wholesale licensees sell to their customers (including department stores, internet retailers, specialty stores, and other retail distribution channels). While we believe that our retail stores and internet website will help promote the brand in a cohesive manner and will strive to maintain competitive pricing on products sold through our Retail Business, there is no guarantee that the other retailers who sell products under the Isaac Mizrahi Brands will not directly compete with our Retail Business through better marketing, more aggressive mark-downs, or other means of attracting customers that may otherwise buy such products from our retail stores or internet website. Likewise, there is no guarantee that sales of products under the Isaac Mizrahi Brands through our retail stores and internet websites will not have a negative impact on sales of such products under our Wholesale Licenses to other customers.

We may not be able to successfully sell products through our internet websites.

We plan to sell merchandise under our Isaac Mizrahi Brands and Judith Ripka brands over the internet. Our internet operations are subject to numerous risks, including:

- the successful implementation of new systems, system enhancements and internet platforms, including our multi-channel and online international order fulfillment and enhanced mobile capability;
- the failure of the computer systems that operate our websites and their related support systems, causing, among other things, website downtimes and other technical failures;
- reliance on third-party computer hardware/software;
- reliance on third-party order fulfillment providers;
- rapid technological change;
- diversion of sales from our stores;
- liability for online content;
- violations of federal, state or other applicable laws, including those relating to online privacy;
- credit card fraud;
- telecommunications failures and vulnerability to electronic break-ins and similar disruptions;
- successfully market and direct consumers to our website; and
- we have no history of operating an e-commerce business and there are no assurances that we can operate an e-commerce business successfully.

Our failure to successfully address and respond to these risks could reduce internet sales, increase costs and damage the reputation of our brands.

Intangible assets, including our trademarks and goodwill represent a substantial portion of our assets. As a result of changes in market conditions and declines in the estimated fair value of these assets, we may, in the future, be required to write down a portion of our intangible assets and such write-down would, as applicable, either decrease our net income or increase our net loss.

Trademarks and other intangible assets including goodwill represent a significant portion of our assets. Under accounting standards generally accepted in the United States of America, indefinite lived intangible assets, including our trademarks and goodwill, are not amortized, but must be tested for impairment annually or more frequently if events or circumstances indicate the asset may be impaired. The estimated useful life of an intangible asset must be evaluated each reporting period to determine whether events and circumstances continue to support an indefinite useful life. Any write-down of intangible assets resulting from future periodic evaluations would, as applicable, either decrease our net income or increase our net loss and those decreases or increases could be material.

Changes in effective tax rates or adverse outcomes resulting from examination of our income or other tax returns could adversely affect our results.

Our future effective tax rates could be adversely affected by changes in the valuation of our deferred tax assets and liabilities, or by changes in tax laws or by a change in allocation of state and local jurisdictions, or interpretations thereof. In addition, we are subject to the continuous examination of our income tax returns by the Internal Revenue Service and other tax authorities. We regularly assess the likelihood of recovering the amount of deferred tax assets recorded on the balance sheet and the likelihood of adverse outcomes resulting from examinations by various taxing authorities in order to determine the adequacy of our provision for income taxes. We cannot guarantee that the outcomes of these evaluations and continuous examinations will not harm our reported operating results and financial conditions.

We must successfully maintain and/or upgrade our information technology systems.

We rely on various information technology systems to manage our operations, which subjects us to inherent costs and risks associated with maintaining, upgrading, replacing and changing these systems, including impairment of our information technology, potential disruption of our internal control systems, substantial capital expenditures, demands on management time and other risks of delays or difficulties in upgrading, transitioning to new systems or of integrating new systems into our current systems.

A decline in general economic conditions resulting in a decrease in consumer-spending levels and an inability to access capital may adversely affect our business.

Many economic factors beyond our control may impact our forecasts and actual performance. These factors include consumer confidence, consumer spending levels, employment levels, or availability of consumer credit, recession, deflation, inflation, a general slowdown of the U.S. economy or an uncertain economic outlook. Furthermore, changes in the credit and capital markets, including market disruptions, limited liquidity and interest rate fluctuations, may increase the cost of financing or restrict our access to potential sources of capital for future acquisitions.

The risks associated with our business are more acute during periods of economic slowdown or recession. In addition to other consequences, these periods may be accompanied by decreased consumer spending generally, as well as decreased demand for, or additional downward pricing pressure on, the products carrying our brands. Accordingly, any prolonged economic slowdown or a lengthy or severe recession with respect to either the U.S. or the global economy is likely to have a material adverse effect on our results of operations, financial condition and business prospects.

We have an ever-growing reliance on technology including web-based information, proprietary data storage and normal business operations, which creates increased risk for us to ensure these systems remain uncompromised.

As threats of cyber-attacks expand across industries, and given the potential material impact on operations, the security of these digital technologies from internal and external threat could disrupt services and lead to misuse and “leakage” that could lead to significant capital outlays.

RISKS RELATED TO AN INVESTMENT IN OUR SECURITIES

The recently enacted JOBS Act allows us to postpone the date by which we must comply with certain laws and regulations and to reduce the amount of information provided in reports filed with the SEC. We cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make our common stock less attractive to investors.

We are and we will remain an “emerging growth company” until the earliest to occur of (i) the last day of the fiscal year during which our total annual revenues equal or exceed \$1 billion (subject to adjustment for inflation), (ii) the last day of the fiscal year following the fifth anniversary of the first date of sales of securities pursuant to this registration statement, (iii) the date on which we have, during the previous three-year period, issued more than \$1 billion in non-convertible debt, or (iv) the date on which we are deemed a “large accelerated filer” under the Securities and Exchange Act of 1934, as amended, or the Exchange Act. For so long as we remain an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012, or the JOBS Act, we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. We cannot predict if investors will find our common stock less attractive because we will rely on some or all of these exemptions. If some investors find our common stock less attractive as a result, there may be a less active trading market for our common stock and our stock price may be more volatile. If we avail ourselves of certain exemptions from various reporting requirements, our reduced disclosure may make it more difficult for investors and securities analysts to evaluate us and may result in less investor confidence.

If we fail to maintain an effective system of internal controls, we may not be able to report our financial results accurately or in a timely fashion, and we may not be able to prevent fraud; in such case, our stockholders could lose confidence in our financial reporting, which would harm our business and could negatively impact the price of our stock.

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002, we are required to include in our Annual Report on Form 10-K our assessment of the effectiveness of our internal controls over financial reporting. We have dedicated a significant amount of time and resources to ensure compliance with this legislation for the year ended December 31, 2013 and will continue to do so for future fiscal periods. Although we believe that we currently have adequate internal control procedures in place, we cannot be certain that future material changes to our internal controls over financial reporting will be effective. If we cannot adequately maintain the effectiveness of our internal controls over financial reporting, we may be subject to sanctions or investigation by regulatory authorities, such as the SEC. Any such action could adversely affect our financial results and the market price of our common stock. Moreover, if we discover a material weakness, the disclosure of that fact, even if quickly remedied, could reduce the market's confidence in our financial statements and harm our stock price.

Our independent registered public accounting firm will not be required to formally attest to the effectiveness of our internal control over financial reporting until we are no longer an "emerging growth company." At such time that an attestation is required, our independent registered public accounting firm may issue a report that is adverse or qualified in the event that it is not satisfied with the level at which our controls are documented, designed or operating. Our remediation efforts may not enable us to avoid a material weakness in the future.

Management exercises significant control over matters requiring shareholder approval which may result in the delay or prevention of a change in our control.

The combined voting power of the common stock ownership of our officers and directors and key employees is approximately 71% of our voting securities. Additionally, pursuant to a voting agreement, IM Ready, Isaac Mizrahi and Marisa Gardini agreed to appoint a person designated by the board of directors as their collective irrevocable proxy and attorney-in-fact with respect to the shares of the common stock received by them. The proxy holder shall vote in favor of matters recommended or approved by the board of directors. The board of directors has designated Robert D'Loren as proxy holder. Also, pursuant to a separate voting agreement, Ripka agreed to appoint Mr. D'Loren as her collective irrevocable proxy and attorney-in-fact with respect to the shares of the common stock received by her. The proxy holder shall vote in favor of matters recommended or approved by the board of directors.

As a result, our management and key employees through such stock ownership exercises significant control over all matters requiring shareholder approval, including the election of our directors and approval of significant corporate transactions. This concentration of ownership in management and key employees may also have the effect of delaying or preventing a change in control of us that may be otherwise viewed as beneficial by stockholders other than management. There is also a risk that our existing management and a limited number of stockholders may have interests which are different from certain stockholders and that they will pursue an agenda which is beneficial to themselves at the expense of other stockholders.

There are limitations on the liabilities of our directors and executive officers. Under certain circumstances, we are obligated to indemnify our directors and executive officers against liability and expenses incurred by them in their service to us.

Pursuant to our amended and restated certificate of incorporation and under Delaware law, our directors are not liable to us or our stockholders for monetary damages for breach of fiduciary duty, except for liability for breach of a director's duty of loyalty, acts or omissions by a director not in good faith or which involve intentional misconduct or a knowing violation of law, dividend payments or stock repurchases that are unlawful under Delaware law or any transaction in which a director has derived an improper personal benefit. In addition, we have entered into indemnification agreements with each of our directors and executive officers. These agreements, among other things, require us to indemnify each director and executive officer for certain expenses, including attorneys' fees, judgments, fines and settlement amounts, incurred by any such person in any action or proceeding, including any action by us or in our right, arising out of the person's services as one of our directors or executive officers. The costs associated with providing indemnification under these agreements could be harmful to our business.

The Company incurs increased costs as a result of being a public company, which may adversely affect its business.

As a public company, we incur significant legal, accounting and other expenses that private companies do not incur. In addition, the Sarbanes-Oxley Act of 2002 and new rules subsequently implemented by the SEC have required changes in corporate governance practices of public companies. These rules and regulations create legal and financial compliance costs and make some activities more time consuming and costly than if we were private. For example, as a public company, the Company has adopted policies regarding internal controls and disclosure controls and procedures in order to comply with public company internal control and disclosure standards.

The market price of our common stock may be volatile, which could reduce the market price of our common stock.

The publicly traded shares of our common stock are not widely held, and do not have significant trading volume, and therefore may experience significant price and volume fluctuations. This market volatility could reduce the market price of the common stock, regardless of our operating performance. In addition, the trading price of the common stock could change significantly over short periods of time in response to actual or anticipated variations in our quarterly operating results, announcements by us, our licensees or our respective competitors, factors affecting our licensees' markets generally and/or changes in national or regional economic conditions, making it more difficult for shares of the common stock to be sold at a favorable price or at all. The market price of the common stock could also be reduced by general market price declines or market volatility in the future or future declines or volatility in the prices of stocks for companies in the trademark licensing business or companies in the industries in which our licensees compete.

We are subject to the penny stock rules adopted by the SEC that require brokers to provide extensive disclosure to their customers prior to executing trades in penny stocks. These disclosure requirements may cause a reduction in the trading activity of our common stock, which in all likelihood would make it difficult for our stockholders to sell their securities.

Rule 3a51-1 of the Securities Exchange Act of 1934 establishes the definition of a "penny stock," for purposes relevant to us, as any equity security that has a minimum bid price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to a limited number of exceptions which are not available to us. This classification would severely and adversely affect any market liquidity for our common stock.

For any transaction involving a penny stock, unless exempt, the penny stock rules require that a broker or dealer approve a person's account for transactions in penny stocks and the broker or dealer receive from the investor a written agreement to the transaction setting forth the identity and quantity of the penny stock to be purchased. In order to approve a person's account for transactions in penny stocks, the broker or dealer must obtain financial information and investment experience and objectives of the person and make a reasonable determination that the transactions in penny stocks are suitable for that person and that that person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prepared by the SEC relating to the penny stock market, which, in highlight form, sets forth:

- The basis on which the broker or dealer made the suitability determination; and
- That the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and commission payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

Because of these regulations, broker-dealers may not wish to engage in the above-referenced necessary paperwork and disclosures and/or may encounter difficulties in their attempt to sell shares of our common stock, which may affect the ability of selling stockholders or other holders to sell their shares in any secondary market and have the effect of reducing the level of trading activity in any secondary market. These additional sales practice and disclosure requirements could impede the sale of our common stock, if and when our common stock becomes publicly traded. In addition, the liquidity for our common stock may decrease, with a corresponding decrease in the price of our common stock. Our common stock, in all probability, will be subject to such penny stock rules for the foreseeable future and our stockholders will, in all likelihood, find it difficult to sell their common stock.

Future sales of common stock in the public market or the issuance of common stock or securities senior to the common stock could adversely affect the trading price of our common stock.

Our Certificate of Incorporation currently authorizes our board of directors to issue shares of common stock in excess of the common stock currently outstanding. Any additional issuances of any of our authorized but unissued shares will not require the approval of stockholders and may have the effect of further diluting the equity interest of stockholders.

We may issue common stock in the future for a number of reasons, including to attract and retain key personnel, to lenders, investment banks, or investors in order to achieve more favorable terms from these parties and align their interests with our common equity holders, to management and/or employees to reward performance to finance our operations and growth strategy, to adjust our ratio of debt to equity, to satisfy outstanding obligations or for other reasons. If we issue securities, our existing stockholders may experience dilution. Future sales of the common stock, the perception that such sales could occur or the availability for future sale of shares of the common stock or securities convertible into or exercisable for our common stock could adversely affect the market prices of our common stock prevailing from time to time. The sale of shares issued upon the exercise of our derivative securities could also further dilute the holdings of our then existing stockholders, including holders of the convertible notes that receive shares of the common stock upon conversion of their notes. In addition, future public sales of shares of the common stock could impair our ability to raise capital by offering equity securities.

We may issue a substantial number of shares of common stock upon exercise of outstanding warrants and options, as payment of our obligations under the Seller Note, Ripka Notes and to satisfy obligations to IM Ready and Ripka if royalty revenue targets are met.

We have outstanding warrants and options to purchase 1,812,668 shares of common stock, of which warrants to purchase 582,428 shares are exercisable at a price of \$0.01 per share. The holders of warrants and options will likely exercise such securities at a time when the market price of our common stock exceeds the exercise price. Therefore, exercises of warrants and options will result in a decrease in the net tangible book value per share of our common stock and such decrease could be material. In addition, we may issue shares of common stock to satisfy up to \$6,366,000 of earn-out payments to IM Ready if royalty revenue targets are met by the Isaac Mizrahi Business and we may issue shares of common stock to satisfy up to \$5,000,000 of earn-out payments to Ripka if royalty revenue targets are met by the Ripka Brand.

We may also satisfy up to \$5,377,000 of the remaining \$5,877,000 principal amount of the Seller Note payable to IM Ready by issuing shares of common stock. The number of shares which we issue to satisfy our earn-out payment obligations or obligations under the Note will be based on the future market price of our common stock and is currently not determinable, provided that there is a floor to the share price to satisfy the Seller Note of \$4.50 per share. The maximum number of shares that could be issued in exchange for the Seller Note and the IM Ready earn-out payments is 2,609,555 shares.

We may also satisfy our obligations under the \$6,000,000 principal amount Ripka Notes payable to Ripka by issuing shares of common stock. The number of shares which we issue to satisfy our earn-out payment obligations or obligations under the Note will be based on the future market price of our common stock and are currently not determinable, provided that there is a floor to the share price to satisfy the Ripka Notes of \$7.00 per share. The maximum number of shares that could be issued in exchange for the Ripka Notes and the Ripka Notes combined with the Ripka earn-out payments is 857,142 shares and 1,571,428 shares, respectively

The issuance of shares to satisfy such obligations and upon exercise of outstanding warrants and options will dilute our then-existing stockholders' percentage ownership of our company, and such dilution could be substantial. Sales or the potential for sale of a substantial number of such shares could adversely affect the market price of our common stock, particularly if our common stock remains thinly traded at such time.

The common stock is not currently traded at high volume, and you may be unable to sell at or near ask prices or at all if you need to sell or liquidate a substantial number of shares at one time.

The common stock is currently traded, but with very low, if any, volume, based on quotations on the "OTCQX", meaning that the number of persons interested in purchasing our common stock at or near bid prices at any given time may be relatively small or non-existent. This situation is attributable to a number of factors, including the fact that prior to September 29, 2011, we did not have an operating business, we are a small company which is still relatively unknown to stock analysts, stock brokers, institutional investors and others in the investment community that generate or influence sales volume, and that even if we came to the attention of such persons, they tend to be risk-averse and would be reluctant to follow an unproven company such as ours or purchase or recommend the purchase of our shares until such time as we became more seasoned and viable. As a consequence, there may be periods of several days or more when trading activity in our shares is minimal or non-existent, as compared to a seasoned issuer which has a large and steady volume of trading activity that will generally support continuous sales without an adverse effect on share price. We cannot provide any assurance that a broader or more active public trading market for our common stock will develop or be sustained, or that trading levels will be sustained.

Stockholders should be aware that, according to Commission Release No. 34-29093, the market for "penny stocks" has suffered in recent years from patterns of fraud and abuse. Such patterns include (1) control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer; (2) manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases; (3) boiler room practices involving high-pressure sales tactics and unrealistic price projections by inexperienced sales persons; (4) excessive and undisclosed bid-ask differential and markups by selling broker-dealers; and (5) the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the resulting inevitable collapse of those prices and with consequent investor losses. Our management is aware of the abuses that have occurred historically in the penny stock market. Although we do not expect to be in a position to dictate the behavior of the market or of broker-dealers who participate in the market, management will strive within the confines of practical limitations to prevent the described patterns from being established with respect to our securities. The occurrence of these patterns or practices could increase the future volatility of our share price.

We do not anticipate paying cash dividends on the common stock.

You should not rely on an investment in our common stock to provide dividend income, as we currently do not plan to pay any in the foreseeable future. Instead, we plan to retain any earnings to maintain and expand our existing licensing operations, further develop our trademarks and finance the acquisition of additional trademarks. Accordingly, investors must rely on sales of their common stock after price appreciation, which may never occur, as the only way to realize any return on their investment. In addition, the Old Loan limits us from paying any cash dividends while it is outstanding.

Provisions of our corporate charter documents could delay or prevent change of control.

Our Certificate of Incorporation authorizes our board of directors to issue up to 1,000,000 shares of "blank check" preferred stock without stockholder approval, in one or more series and to fix the dividend rights, terms, conversion rights, voting rights, redemption rights and terms, liquidation preferences, and any other rights, preferences, privileges, and restrictions applicable to each new series of preferred stock. In addition, our Certificate of Incorporation divides our board of directors into three classes, serving staggered three-year terms. Because of the staggered terms, at least two annual meetings, instead of one, would be required to effect a change in a majority of our board of directors. The designation of preferred stock in the future, and the classification of our board of directors into three classes could make it difficult for third parties to gain control of our company, prevent or substantially delay a change in control, discourage bids for the common stock at a premium, or otherwise adversely affect the market price of the common stock.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies.

Historically, the SEC has taken the position that Rule 144 under the Securities Act, as amended, is not available for the resale of securities initially issued by companies that are, or previously were, blank check companies like us, to their promoters or affiliates despite technical compliance with the requirements of Rule 144. The SEC prohibits the use of Rule 144 for resale of securities issued by shell companies (other than business transaction related shell companies) or issuers that have been at any time previously a shell company. The SEC has provided an important exception to this prohibition, however, if the following conditions are met: the issuer of the securities that was formerly a shell company has ceased to be a shell company; the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act; the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Form 8-K reports; and at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company. As such, due to the fact that we had been a shell company prior to October 2005, holders of “restricted securities” within the meaning of Rule 144, when reselling their shares pursuant to Rule 144, shall be subject to the conditions set forth herein

USE OF PROCEEDS

We will not receive any proceeds from the sale of common stock by the selling security holders. All of the net proceeds from the resale of our common stock will go to the selling security holders as described below in the sections entitled “Selling Security Holders” and “Plan of Distribution”. We have agreed to bear the expenses relating to the registration of the common stock for the selling security holders.

A portion of the shares of common stock covered by this prospectus are issuable upon exercise of the Warrants. We may receive proceeds in the event some or all of the Warrants held by the selling security holders are exercised for cash. To the extent that the selling stockholders exercise, for cash, all of the Warrants covering the 1,443,478 shares of common stock registered for resale under this prospectus, we would receive approximately \$4,353,474 in the aggregate from such exercises; however the holders of the Warrants may elect to exercise the Warrants utilizing a cashless exercise provision. Any proceeds received from the exercise of the warrants will be used for working capital and other general corporate purposes.

DETERMINATION OF OFFERING PRICE

The prices at which the shares of common stock covered by this prospectus may actually be sold will be determined by the prevailing public market price for shares of common stock, by negotiations between the selling security holders and buyers of our common stock in private transactions or as otherwise described in “Plan of Distribution.”

DILUTION

The selling security holders are offering for resale common shares underlying the outstanding Warrants. To the extent such Warrants are exercised, the existing stockholders will experience dilution to their ownership interests in us.

DESCRIPTION OF BUSINESS

Overview of the Business

The Company is a brand management company engaged in the design, licensing, marketing and retail sales of consumer brands, including the Isaac Mizrahi Brands, certain rights of LCNy and the Ripka Brand, which we acquired on April 3, 2014. The Company operates in two segments - (1) Design and Licensing and (2) our Retail Business.

Our Design and Licensing business operates in a “working capital light” business model, wherein we license our brands to third parties, provide certain design services, and generate royalty and design and service fee revenues through licensing and other agreements with wholesale manufacturers, sourcing and design companies, and retailers. This includes licensing our own brands for promotion and distribution through an Omnichannel retail sales strategy including distribution through direct-response television (i.e. QVC and The Shopping Channel), the internet, and traditional bricks-and-mortar retail channels. The Company believes that this strategy distinguishes it from other brand management companies that rely solely on its licensees for all distribution. The Isaac Mizrahi Brand and LCNy brand are licensed through our wholly-owned subsidiary IM Brands and the Ripka Brand is licensed through our wholly-owned subsidiary, JR Licensing.

The Company’s Retail Business operates through its wholly-owned subsidiary, Retail Management, and was launched in June 2013 opening the Company’s first retail store located in Southampton, New York. The Company opened its second retail store, an outlet store, located near Atlanta, GA, on March 2, 2014. Also, Retail Management plans to launch an e-commerce platform later in 2014.

Recent Developments.

On April 3, 2014, JR Licensing, LLC, a wholly-owned subsidiary of Xcel (“JR Licensing”) entered into an asset purchase agreement dated April 1, 2014 with Judith Ripka Berk, an individual, and certain companies owned by Ms. Ripka including Judith Ripka Creations, pursuant to which JR Licensing purchased from Ripka the Ripka Assets, including the “Judith Ripka” and Judith Ripka Sterling trademarks and other intellectual property rights related to the Ripka Brand. On the closing date of the acquisition, the Company paid Ripka \$12.0 million in cash, \$6.0 million through the issuance of interest free notes payable, and 571,429 shares of the Company’s common stock. The Ripka Notes have a term of five years from the date of issuance, are payable in cash or shares of Xcel common stock valued at the time of payment, at the Company’s option, with a floor price of \$7.00 per share if paid in stock, with Ripka having certain rights to extend the maturity of the Ripka Notes in the event the Company’s stock is trading at a price of less than \$7.00 per share. The Company is obligated to pay Ripka an additional \$1.0 million on October 1, 2014 and an additional \$1.2 million on April 1, 2015. In addition Ripka is eligible to receive additional consideration of up to \$5 million (the “Ripka Earn-out”), payable in cash or shares of the Company’s common stock based on the fair market value of our common stock at the time of payment, with a floor of \$7.00 per share, based on the Ripka Brand achieving in excess of \$1 million of net royalty income during each of the 12-month periods beginning on October 1, 2015 and ending on October 1, 2018. Net royalty income shall not include any revenues generated by direct-response television sales or any revenue accelerated as a result of a termination.

Concurrent with the acquisition of the Ripka Assets, the Company entered into (i) the JR/QVC Agreement and (ii) a license with an affiliate of Ripka that will design, source, market, and promote products under the Ripka Brand to wholesale accounts, through an e-commerce site which Xcel will operate, and through Ripka owned retail stores (the “JR Wholesale Business”). The license with the JR Wholesale Business will provide for a royalty payable to the Company based on its wholesale sale of products under the Ripka Brand. The Company entered into an employment agreement with Ms. Ripka for her to design jewelry for the Company and make in-store appearances and otherwise promote the Ripka Brand through social media, television including QVC and The Shopping Channel and other media.

Concurrent with the acquisition of the Ripka Assets, JR Licensing entered into a \$9 million 5-year term loan with BHI. The JR Loan is secured by all of the assets of JR Licensing and a guarantee from Xcel, secured by a pledge of Xcel’s membership interest in JR Licensing, and by a guarantee from IM Brands, secured by a pledge of all of IM Brands’ assets. The JR Loan bears interest at an annual variable rate of either, LIBOR plus 3.5% or Prime plus 0.50%, at JR Licensing’s option, payable, if the JR Loan is bearing interest based on LIBOR, on the last business day of the applicable interest period and, if the JR Loan is bearing interest based on Prime, quarterly in arrears on the first day of each calendar quarter. Scheduled principal payments are as follows:

Date of Payment	Amount of Principal Payment
April 1, 2015, July 1, 2015, October 1, 2015 and January 1, 2016	\$ 375,000
April 1, 2016, July 1, 2016, October 1, 2016 and January 1, 2017	\$ 625,000
April 1, 2017, July 1, 2017, October 1, 2017 and January 1, 2018	\$ 750,000
April 1, 2018, July 1, 2018, October 1, 2018 and January 1, 2019	\$ 500,000

In addition, JR Licensing shall prepay the outstanding amount of the JR Loan from excess cash flow (“Cash Flow Recapture”) for each fiscal year commencing with the year ending December 31, 2015 in arrears in an amount equal to fifty percent (50%) of such Cash Flow Recapture. Cash Flow Recapture shall mean for any fiscal period, cash provided by operating activities for such period less (a) capital expenditures not made through the incurrence of indebtedness less (b) all interest and principal (including indebtedness owed for the JR Loan) paid or payable during such period less (c) the portion of the holdback amount paid or payable pursuant to the Purchase Agreement during such period less (d) payments made during such period by JR Licensing to Xcel equal to the estimated tax liability of Xcel resulting from any taxable income (net of losses, including for prior years to the extent permitted to be deducted) of JR Licensing. JR Licensing also executed a guaranty of our outstanding \$13 million loan with BHI, in favor of BHI, secured by a pledge of all of JR Licensing’s assets.

Financial Covenants. The Company is required to maintain a minimum fixed charge ratio, minimum EBITDA (as defined in the BHI loan documents), minimum net worth, liquidity covenants and other non-monetary covenants, including reporting requirements and trademark preservation in accordance with the terms and conditions of the JR Loan. In addition, JR Licensing is required to maintain minimum EBITDA. See Note 12, Subsequent Events, to the Notes to Consolidated Financial Statements.

Design and Licensing Business

Our licensing activities focus on three primary components: (i) licensing our brands for distribution through direct-response television (i.e. QVC and The Shopping Channel); (ii) licensing our brands (excluding the Isaac Mizrahi LIVE brand) to wholesale manufacturers, sourcing and design companies, and retailers for promotion and distribution through the internet and traditional bricks-and-mortar retail channels, and (iii) managing and promoting the LCNV Brand for distribution through direct-response television (i.e. QVC). By licensing our brands across direct-response television, the internet, and traditional bricks-and-mortar retail channels, we pursue an “Omnichannel” retail sales strategy for the brand by which we are able to reach our customers and promote sales through all channels of distribution.

In connection with such licensing activities, we provide design support to licensees for our brands where required and coordinate merchandising and sales efforts between our various licensees in each case where appropriate. We also conduct traditional marketing, advertising, public relations, and social media marketing campaigns for our brands, and coordinate such activities with our licensees.

The Company also plans to license to certain international partners the right to distribute products under our brands through department stores and other retailers in such international markets, and/or the right to open and operate retail stores under our brands in such international markets. As of December 31, 2013, the Company did not have any such agreements in place but had international distribution of products under the Isaac Mizrahi brands in certain countries through its Wholesale Licenses, and its license agreement with The Shopping Channel in Canada.

We began our Ripka Brand operations commencing with the asset purchase on April 3, 2014. Our Ripka Brand, which has primarily been marketed in fine jewelry, helps diversify our industry focus, while at the same time complementing, expanding on and growing our overall business relationship with QVC.

QVC Licensing Agreement. Through its wholly-owned subsidiary, IM Brands, the Company has a direct-to-retail license agreement with QVC that was amended on July 2, 2013 (the “July 2013 Amendment”) (as amended, the “QVC Agreement”). Pursuant to the QVC Agreement, IM Brands designs, and QVC sources and sells, various products under the IsaacMizrahiLIVE brand. QVC owns the rights to all designs produced under the QVC Agreement. The IsaacMizrahiLIVE licensing program launched on QVC in 2010, and includes the sale of products across various categories including apparel, footwear, handbags, jewelry, accessories, kitchen, and home goods through QVC’s television media and related internet sites. While such sales have been primarily in the United States, we expect to grow sales in QVC’s international divisions, which currently include the United Kingdom, Italy, Germany, Japan and China.

Pursuant to the QVC Agreement, IM Brands has granted to QVC and its affiliates the exclusive, worldwide right to promote IsaacMizrahiLIVE products and the right to use and publish the related trademarks, service marks, copyrights, designs, logos and other intellectual property rights owned, used, licensed and/or developed by IM Brands for an initial term lasting until September 30, 2015, and extended under the July 2013 Amendment to September 30, 2020, with automatic one-year renewal periods thereafter unless terminated by either party. IM Brands has also granted to QVC and its affiliates, during the same period, exclusive, worldwide rights to promote third party vendor “co-branded products” that, in addition to bearing and being marketed in connection with the trademarks and logos of such third party vendors, also bear or are marketed in connection with the IsaacMizrahiLIVE trademark and related logo. In connection with the foregoing and during the same period, QVC and its subsidiaries have the exclusive, worldwide right to use Isaac Mizrahi’s name, likeness, image, voice and performance to promote IsaacMizrahiLIVE products and co-branded products. QVC is permitted during this period to promote products that are in competition with IsaacMizrahiLIVE products and co-branded products.

In exchange for the rights granted to QVC pursuant to the QVC Agreement, QVC is obligated to pay to IM Brands, on a quarterly basis, royalty payments based upon the “Net Retail Sales” of IsaacMizrahiLIVE products and co-branded products. Under the QVC Agreement, “Net Retail Sales” means the aggregate amount of all revenue generated through the sale of IsaacMizrahiLIVE products or co-branded products by QVC and its subsidiaries under the QVC Agreement, excluding freight, shipping and handling charges, customer returns, and sales, use or other taxes.

Notwithstanding IM Brands’ grant of worldwide promotion rights to QVC, IM Brands may, with the permission of QVC, sell any of the IsaacMizrahiLIVE products to “Prestige Retailers” or via “Company Media” in exchange for making reverse royalty payments to QVC based on the net retail sales of such products to Prestige Retailers or via Company Media. Under the QVC Agreement, (i) “Prestige Retailers” refers to the stores and the respective internet websites of high-end Bricks and Mortar Retailers (companies whose primary means of deriving revenue is marketing and selling consumer products to end-users of such consumer products at a physical location) such as Neiman Marcus, Bloomingdales and Macy’s Department Stores, but excluding discount divisions of such companies and any mass merchants such as drugstores, warehouse stores and companies such as Sears, JC Penney, Target, Walmart and Kmart; and (ii) “Company Media” refers to “Isaac Mizrahi” and “Isaac Mizrahi New York”-branded bricks and mortar retail stores and internet websites, if any. The Company does not currently sell any of the IsaacMizrahiLIVE products through any of these distribution channels.

Under the QVC Agreement, IM Brands may also earn revenue from (i) the sale, license, consignment or any other form of distribution of any products, bearing, marketed in connection with or otherwise associated with IM Brands’ trademarks and brands (including the Isaac Mizrahi Brands) and/or (ii) the licensing of any and all intellectual property rights with respect to any and all products, including IsaacMizrahiLIVE products, bearing, marketed in connection with or otherwise associated with IM Brands’ trademarks and brands; provided that it pays specified portions of the revenues earned from the foregoing activities to QVC.

Under the QVC Agreement, IM Brands is restricted from selling products under the Isaac Mizrahi Brands or any of its other trademarks and brands (including the trademarks, copyrights, designs, logos and related intellectual property themselves) to Kmart, Wal-Mart, Sears Roebuck & Co. The QVC Agreement also prohibits IM Brands from selling products under the Isaac Mizrahi Brands or any of its other trademarks and brands to a direct competitor of QVC (defined as any entity other than QVC, including HSN, Inc. and Value Vision Media, Inc., whose primary means of deriving revenue is the transmission of direct-response television programs, including the Home Shopping Network, ShopNBC, America's Store and Shop at Home Network), provided that pursuant to a July 8, 2013 amendment, IM Brands is permitted to enter into agreements to market products through certain direct response television within certain identified geographic regions and with other non-QVC entities as may be approved by QVC. Any such agreements must expire no later than December 31, 2015, unless QVC consents to an extension to any such agreement. In consideration for QVC permitting the Company and IM Brands to enter into such agreements, the Company and IM Brands will pay specified portions of the revenues earned from those agreements to QVC. In addition, pursuant to the Amendment, the parties agreed that the license period of the Agreement shall be renewed automatically on October 1, 2015 for an additional five (5) year term.

In addition to the foregoing, the QVC Agreement permits the Company to promote its bricks-and-mortar collections on QVC's television program subject to certain terms and restrictions. The Company also is obligated to provide QVC with a key-man life insurance policy to provide payment to QVC in the event of a death of Isaac Mizrahi.

For the year ended December 31, 2013 (the "Current Year") and December 31, 2012 (the "Prior Year") the QVC Agreement accounted for 61% of the total revenues of the Company for each year.

Wholesale Licensing Agreements. As of December 31, 2013, the Company had entered into over 50 additional licensing agreements related to the Isaac Mizrahi Brands for sales and distribution through the internet and traditional bricks-and-mortar retailers (the "Wholesale Licenses") in various categories, including but not limited to Womens' Footwear, Accessories, Apparel, Outerwear, and Bridal Gowns; Fragrance, Bath and Body; Jewelry; Home Products; Mens' Apparel and Accessories; Childrens' and Infant Apparel, Footwear and Accessories; and Electronics Cases and Accessories. The terms of the agreements generally range from three to six years with renewal options. Revenue from the Wholesale Licenses represented approximately 18% and 12% of the Company's total revenues for the Current Year and the Prior Year, respectively.

The Company is also in negotiations and/or discussions with other potential licensees and partners to license and/or co-brand the Isaac Mizrahi Brands in additional categories. In certain cases, the Company has engaged licensing agents to assist in the procurement of such licenses for which IM Brands or our licensees pay such agents' fees based upon a percentage of the net sales of licensed products by such licensees, or a percentage of the royalty payments that IM Brands receives from such licensees. While many of the new and proposed licensing agreements will likely require the Company to provide seasonal design guidance, most of our new and prospective licensing partners have their own design staff, and the Company therefore expects to have low incremental overhead related to expanding our licensing business. The Company will endeavor, where possible, to require licensees to provide guaranteed minimum royalties under their license agreements.

The Company's licensees under the Wholesale Licenses currently and/or plan to sell licensed products through bricks-and-mortar retailers, internet websites, for certain categories, through our retail stores and e-commerce site, and in certain cases will supply products to QVC, The Shopping Channel, and/or other direct-response television companies for sale through their television programs and/or through their internet websites. The Company generally recognizes revenues from its Wholesale Licenses based on a percentage of the sales of products under the Isaac Mizrahi Brands, but excluding sales of products to direct-response television networks, where the Company receives a retail royalty directly from the direct-response television licensee, and sales of products to retail stores and/or e-commerce sites operated by the Company. Additionally, based upon guaranteed minimum royalty provisions required under many of the license agreements, the Company is able to recognize revenue related to certain Wholesale Licenses based on the greater of the sales-based royalty or the guaranteed minimum royalty.

LCNY Agreement. Pursuant to the LCNY Agreement, the Company provides certain promotional services related to the LCNY Brand, rights to use Isaac Mizrahi name as creative director for the LCNY Brand, and design services to KSC for the LCNY Brand, which is sold exclusively through QVC.

Pursuant to the LCNY Agreement, Isaac Mizrahi or another spokesperson agreeable to the Company, QVC and KSC (any such person, the "Designer"), must be made available to act as creative director for the LCNY Brand and for print or other media campaigns (Isaac Mizrahi does not currently promote the products or line, but QVC and KSC may require that a Designer promote the products on QVC in the future). As creative director, the Designer works with and directs a design staff employed by the Company, for which design services the Company is compensated under a separate agreement with QVC. The current term of the LCNY Agreement lasts until July 31, 2016, after which the LCNY Agreement automatically renews for four one-year renewal terms unless otherwise terminated by QVC.

The Company has absolute approval over any use of the Designer's name and/or likeness, but it has otherwise granted to KSC all rights in any works (or contributions to works) comprised in design or advertising materials that are used in connection with products under the LCNy Brand, other than the trademark, name, image, or likeness of the Designer. The Company has also granted to KSC the right to use the Designer's name, signature, photograph, voice or other sound effects, likeness, personality, endorsement, biography and statements in connection with the design, manufacture, importation, distribution, sale, marketing and advertising in any media of the products under the LCNy Brand. Additionally, KSC and QVC may use the Isaac Mizrahi name, image, or likeness to promote the role of the Company in the design of products under the LCNy Brand, but may not use the Isaac Mizrahi name, image or likeness as part of the LCNy Brand label itself. Under the LCNy Agreement, the Company has agreed that neither it nor the Designer may, directly or indirectly, associate or affiliate the Designer's name or trademark with Wal-Mart, Kmart and Sears.

In consideration for the promotional and creative services, the rights to the designs created by the Company for the LCNy Brand, and all other rights provided by the Company to KSC pursuant to the LCNy Agreement, KSC is obligated to pay to the Company a percentage of the royalty revenues KSC receives from QVC (pursuant to a separate license agreement by and between KSC and QVC) for sale of products under the LCNy Brand through QVC-owned, -operated and -branded direct-response television programs, website and retail stores, with the percentage equal to twenty-five percent (25%) of such royalties prior to July 31, 2013, and fifty percent (50%) of such royalties following July 31, 2013. In the event that KSC uses the design and technical specifications of products for merchandise that is sold by KSC to international customers or through its own retail stores, the Company is entitled to additional royalty fees with respect to such merchandise to be agreed with KSC. In addition to compensation to be paid by KSC to the Company as described above, KSC is also obligated to pay to the Company twenty-five percent (25%) of the royalty revenues KSC receives from Elizabeth Arden during the term of the LCNy Agreement for fragrance products bearing the LCNy Brand. Finally, if KSC enters into any new licenses with respect to the LCNy Brand during the term of the LCNy Agreement, KSC has agreed to pay to the Company 25% of the royalty revenues KSC receives from such new licenses. For the Current year and the Prior Year, the LCNy Agreement accounted for 12% and 13% of the Company's total revenues, respectively.

Design and Promotional Services

The Company provides design and other services to certain of its licensees, and in some cases, to select brands owned by third parties. In particular, the Company provides full design services to QVC for products sold under both the QVC Agreement and LCNy Agreement, including seasonal design guidance, product development and merchandising, product design and sample review and approvals through its in-house design organization, and provides limited design services under its Wholesale Licenses which may include seasonal design guidance (such as style guides) and/or print and pattern development, for which certain of our licensees pay us fixed fees for such services as determined in their agreements. In general with the exception of the QVC Agreement and LCNy Agreement, the design of products under our Wholesale Licenses is expected to be completed by the licensees. The Company may also provide design services to other companies and/or brands in the future.

In certain cases, the Company provides promotional services to other brands or companies, which may include the use of Isaac Mizrahi or the Isaac Mizrahi Brands for the promotion of such company or brands through the internet, television, or other digital content, print media or other marketing campaigns featuring, in-person appearances by Mr. Mizrahi, the development of limited collections of products (which may include co-branded products) for such company, or other services as determined on a case-by-case basis.

In order to provide the design services for the Isaac Mizrahi Business, the Company employs a design team. The Company may consider appropriate opportunities to leverage its resources to provide design services or other resources to selected brands that are not owned by the Company in the future.

Retail Business

The Company, through its wholly owned subsidiary Retail Management operates bricks-and-mortar retail stores and an e-commerce site under the Isaac Mizrahi Brands. In June 2013, the Company opened its first store under the Isaac Mizrahi Brands as a seasonal store in Southampton, New York. The Company opened an outlet store in Atlanta, GA in March 2014, and may open additional stores under the Isaac Mizrahi Brands in the United States. The Company plans on launching an e-commerce platform in 2014 to sell certain categories of Isaac Mizrahi branded products. The Company also plans to license to certain third parties the right to open and operate retail stores under the Isaac Mizrahi Brands in international territories.

The Company recognizes revenues from its Retail Business primarily through the sale of products under the Isaac Mizrahi Brands in retail stores and its planned e-commerce site. Additionally, in order to operate the Retail Business, the Company invested and plans to continue to invest in an operating retail division infrastructure to handle such functions as site selection, store build-out, retail merchandising, marketing, and other functions. While the Company has relatively few stores, we expect that these costs will create an operating loss in the Company's Retail Business until such time as the business scales and the costs are allocated across additional stores, at which time the results from the Retail Business should improve. As of December 31, 2013, the Retail Business did not generate a significant amount of revenues for the Company. See Note 10, Segment Information in the Consolidated Financial Statements.

Future Brands

The Company may acquire or enter into licensing, joint venture, or other agreements for brands in the future that it believes it may be able to generate revenues by leveraging its licensing, design, and/or marketing expertise. In the event the Company does decide to enter into a transaction with other brands, the Company will analyze such potential transactions for the expected viability and sustainability of future royalty streams, their growth potential, ability to sell products across platforms, fit with the Company's existing business and the economic and strategic impact on the Company. The Company would also seek to leverage its existing operational infrastructure to operate any acquired business or intellectual property, and may need to hire additional design, marketing, sales or other personnel or incur additional expenses to operate the business. One of the Company's priorities in evaluating potential acquisitions is to consider the effect on earnings per share with a goal of acquiring brands that are expected to be accretive to earnings in a reasonable period after completion of the acquisition. Each acquisition opportunity will be analyzed on a case-by-case basis. Based on its current cash position, a transaction may require the Company to raise additional equity financing, which may be dilutive to its shareholders, or debt financing, which may impose operating restrictions on the Company, unless substantially all of the consideration paid for a transaction is paid through the issuance of capital stock or a note to the other party, or such transaction does not require any up-front capital to be paid to the other party.

Marketing

We believe that marketing is a critical element to maximize brand value to our licensees and the Company. Therefore, we provide social media marketing and other marketing and public relations support for our brands.

Given the Company's Omnichannel retail sales strategy focusing on the sale of branded products through various distribution channels (including internet, direct-response television, and traditional bricks-and-mortar Sales Channels, our marketing efforts currently focus on social media campaigns, appearances, and digital content in order to drive retail sales of product and consumer awareness across our various sales distribution channels. As such, our marketing is currently conducted primarily through (i) Twitter campaigns, (ii) Facebook campaigns, (iii) Pinterest, (iv) Instagram and (v) blogs, videos, images (i.e. Instagram, Pinterest) and other internet content that are all updated regularly. Our efforts also include promoting namesakes of our brands and our personalities through various media including television (Project Runway All-Stars, Live with Kelly), design for performances, and other events. We also work with QVC to leverage QVC's internet resources including discussion boards, Facebook and Twitter campaigns, and QVC's website.

Many of our licensees make an advertising and marketing contribution to the Company under their license agreements, and we will use such monies to pay marketing-related expenses and further promote our brands as we deem appropriate. Certain of the Wholesale Licenses contain requirements to, or such licensees may elect to, provide advertising or marketing for the Isaac Mizrahi Brands under their license agreements with IM Brands. If we acquire additional brands, we would seek to expand our marketing efforts to address the specific needs of such acquired brands.

Additionally, we market the Isaac Mizrahi Brands through the opening of retail stores in the United States and internationally, and through our e-commerce site. Through our retail stores and e-commerce site, we are able to present and promote a collection of products under the Isaac Mizrahi Brands for sale to customers with branding and signage that reflects the brand's heritage and unique point-of-view. Additionally, we conduct local store marketing campaigns for the brand, which may include printed media, in-store trunk shows and events, sales and promotions, and other efforts centered around promoting the brand and increasing customer traffic, whether in our physical retail stores or through our e-commerce site.

Competition

Our brands and additional brands that the Company may acquire will be, subject to extensive competition from various domestic and foreign brands. Each of the Isaac Mizrahi Brands, Judith Ripka, and the LCNY Brand and any acquired brand will likely have many competitors within each of its specific distribution channels that span a broad variety of product categories, including the apparel, footwear, accessories, jewelry, home furnishings and décor, food products and sporting goods industries. These competitors have the ability to compete with the Company and the Company's licensees in terms of fashion, quality, price, products and/or marketing.

To the extent the Company seeks to acquire additional brands, it will face competition to retain licenses and to complete the acquisitions of additional brands. The ownership, licensing, and management of brands is becoming a more widely utilized method of managing consumer brands as production continues to become commoditized and manufacturing capacity increases worldwide. The Company will face competition from numerous direct competitors, including publicly and privately-held companies, including traditional apparel and consumer brand companies, other brand management companies and private equity groups. Companies that traditionally focused on wholesale manufacturing and sourcing models are also exploring licensing as a way of growing their businesses through strategic licensing partners and direct-to-retail licensing arrangements. The retailers and manufacturers to which the Company currently licenses (or may in the future license) its brands may also decide to develop or purchase brands rather than entering into license agreements with the Company.

Because many of our competitors have significantly more cash and revenues than us, the Company must work to differentiate itself from its direct and indirect competitors and successfully compete for market share with the brands it owns and for future acquisitions. The Company believes that its management team (including its managers' and directors' historical track records and relationships within the industry) as well as its operating strategy of licensing brands with significant media presence and driving sales through its Omnichannel retail sales strategy across direct-response television, bricks-and-mortar, internet and retail channels will help differentiate itself in an increasingly crowded competitive landscape.

The Company faces significant competition in its Retail Business as it competes with retail stores operated by other companies that sell brands that are competitive with the Company's brands, internet websites and other direct-to-consumer sales channels of other brands, and department stores, e-commerce sites, and other distribution channels that currently or may in the future sell products under the Isaac Mizrahi Brands, the Ripka Brand or other brands that the Company may acquire in the future. Additionally, due to their financial resources, margins, or store counts, our competitors may be able to secure more favorable retail locations for their brands and stores than we may achieve, may be able to better market their retail locations or e-commerce sites, and may undercut the pricing of products that we sell through our Retail Business which could lower sales of products through our Retail Business or erode our margins.

Trademarks

The Company, through IM Brands, owns and exploits the Isaac Mizrahi Brands which includes the trademarks and brands "Isaac Mizrahi", "Isaac Mizrahi New York", "Isaac Mizrahi Jeans", "M." and "IsaacMizrahiLIVE". These trademarks and associated marks are registered or pending registration with the U.S. Patent and Trademark Office in block letter and/or logo formats, as well as in combination with a variety of ancillary marks for use with respect to a variety of product categories, including apparel, footwear and various other goods and services, including in some cases, home furnishings and decor. The Company intends to renew these registrations as appropriate prior to expiration. In addition, the Company registers its trademarks in certain other countries and regions around the world as it deems appropriate.

The Company, through JR Licensing, acquired the Judith Ripka Brands, which includes Judith Ripka, Judith Ripka Sterling, and all derivative brands under the Judith Ripka label. These trademarks were acquired on April 3, 2014.

The Company and its licensees do not presently have a material amount of revenue from either the licensing of the Company's trademarks internationally or the sale of products under its trademarks internationally. If the Company or a licensee use of the trademarks in international territories, the Company will seek to register its trademarks in such international territories as it deems appropriate based upon factors including the revenue potential, prospective market and trademark laws in such territory or territories.

Generally, the Company is primarily responsible for monitoring and protecting its trademarks around the world. The Company engages the services of legal counsel to maintain and monitor its existing trademarks, and may register its existing trademarks or new trademarks in various territories around the world based upon its current and planned business strategy. Additionally, the Company seeks to require its licensing partners to advise the Company of any violations of its trademark rights of which its licensing partners become aware. The Company monitors on an ongoing basis unauthorized use and filings of the Company's trademarks, and the Company relies primarily upon a combination of federal, state, and local laws, as well as contractual restrictions to protect its intellectual property rights both domestically and internationally.

Employees

As of December 31, 2013, we had 35 full-time employees and 5 part-time employees.

Government Regulation

We are subject to federal, state and local laws and regulations affecting our business, including those promulgated under the Occupational Safety and Health Act, the Consumer Product Safety Act, the Flammable Fabrics Act, the Textile Fiber Product Identification Act, the rules and regulations of the Consumer Products Safety Commission and various environmental laws and regulations. We believe that we are in compliance in all material respects with all applicable governmental regulations.

Corporate Background

The Company was incorporated on August 31, 1989 in the State of Delaware under the name Houston Operating Company. On April 19, 2005, we changed our name to NetFabric Holdings, Inc. and on September 29, 2011 we changed our name to Xcel Brands, Inc. On September 29, 2011, Xcel Brands, Inc., a privately held Delaware corporation (“Old XCel”), Netfabric Acquisition Corp., a Delaware corporation (“Acquisition Corp.”) and wholly-owned subsidiary of the Company, and certain stockholders of the Company entered into an Agreement of Merger and Plan of Reorganization (the “Merger Agreement”) pursuant to which Acquisition Corp. was merged with and into Old XCel, with Old XCel surviving as a wholly-owned subsidiary of the Company (the “Merger”).

Also in connection with the Merger and related transactions, the Company acquired (i) the “Isaac Mizrahi” brands (including the trademarks and brands “Isaac Mizrahi New York”, “Isaac Mizrahi” and “IsaacMizrahiLIVE” (collectively, the “IM Trademarks”), (ii) the QVC Agreement, (iii) the LCNY Agreement and the Design Agreement to design the LCNY Brand for sale exclusively at QVC and (iv) computers, design software, and other assets related to the licensing and design of the IM Trademarks and the design of the LCNY Brand.

Properties

We do not own any real property. We currently lease and maintain our corporate offices and operations located at 475 Tenth Avenue, 4th Floor, New York, New York 10018. Pursuant to the Purchase Agreement, we assumed a lease for such office of approximately 18,500 square feet of office space which lease is guaranteed by IM Brands. Our base office rental expense on a monthly basis is approximately \$44,000, plus annual increases to \$51,076 during the last year of the lease, taxes and other fees payable under the lease. The office lease term expires in June 2016. We believe that this space will be sufficient to meet our current operating needs. We also lease and maintain a retail store in Southampton, New York of approximately 1,800 square feet, which has a one-year term with a two-year renewal option. The monthly rent expense is approximately \$8,000. In addition we leased approximately 1,900 square feet of retail space in Woodstock, GA intended for our second retail store, which has a 10-year term with annual base rent of \$50,112 for the first three years of the lease. Annual base rent escalates thereafter up to a maximum of \$61,637 in year 10.

LEGAL PROCEEDINGS

To the best of our knowledge, there are no material pending legal proceedings to which we are a party or of which any of our property is the subject.

Overview of the Business

Xcel Brands, Inc. is a brand management company engaged in the design, licensing, marketing and retail sales of consumer brands, including the Isaac Mizrahi Brand and certain rights of the LCNY and the Ripka Brand, which we acquired on April 3, 2014. The Company operates in two segments - (1) Design and Licensing and (2) our Retail Business.

The Company maximizes the value of its brands by entering into strategic licenses with licensees who it assists in designing, manufacturing and distributing the licensed products. The Company selects licensees that it believes will be able to produce and sell high quality products in the categories in which they specialize in amounts that are capable of exceeding minimum sales targets and royalties that are included in the Company's licensing agreements for each of its brands.

Our Design and Licensing business operates in a “working capital light” business model, wherein we license our brands to third parties, provide certain design services, and generate royalty and design and service fee revenues through licensing and other agreements with wholesale manufacturers, sourcing and design companies, and retailers. This includes licensing our own brands for promotion and distribution through an Omnichannel retail sales strategy including distribution through direct-response television (i.e. QVC and The Shopping Channel), the internet, and traditional bricks-and-mortar retail channels. The Company believes that this strategy distinguishes it from other brand management companies that rely solely on their licensees for all distribution. The Isaac Mizrahi Brand and LCNY brand are licensed through our wholly-owned subsidiary IM Brands and the Ripka Brand is licensed through our wholly-owned subsidiary, JR Licensing.

The Company's Retail Business operates through its wholly-owned subsidiary, Retail Management, and was launched in June 2013 opening the Company's first retail store located in Southampton, New York. The Company opened its second retail store, an outlet store, located near Atlanta, GA, on March 2, 2014. Also, Retail Management plans to launch an e-commerce platform later in 2014.

Summary of Critical Accounting Policies

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Critical accounting policies are those that are the most important to the portrayal of our financial condition and results of operations, and that require our most difficult, subjective and complex judgments as a result of the need to make estimates about the effect of matters that are inherently uncertain. While our significant accounting policies are described in more detail in the notes to our financial statements, our most critical accounting policies, discussed below, pertain to revenue recognition, trademarks, goodwill and other intangible assets, stock-based compensation, fair value of contingent obligations and income taxes. In applying such policies, we must use some amounts that are based upon our informed judgments and best estimates. Estimates, by their nature, are based upon judgments and available information. The estimates that we make are based upon historical factors, current circumstances and the experience and judgment of management. We evaluate our assumptions and estimates on an ongoing basis.

Revenue Recognition

In connection with our licensing model, revenue is generated from licenses and is based on reported sales of licensed products bearing our trademarks, at royalty rates specified in the license agreements. These agreements are also subject to contractual minimum levels. Design and service fees are recorded and recognized in accordance with the terms and conditions of each service contract, including the Company meeting its obligations and providing the relevant services under each contract. Generally, we record on a straight-line basis, each base fee as stated in each service agreement for the covered period and, if applicable, we recognize additional payments received that relate to a future period as deferred revenue, until service is provided or revenue is otherwise earned. We recognize revenue from our retail store upon sale of our products to retail consumers, net of estimated returns.

Trademarks, Goodwill and Other Intangible Assets

The Company follows Financial Accounting Standards Board (“FASB”) Accounting Standard Codification (“ASC”), ASC Topic 350 “Intangibles - Goodwill and Other”. Under this standard, goodwill and indefinite lived assets are not amortized. The Company’s definite lived intangible assets are amortized over their estimated useful lives. Under this standard, the Company annually has the option to first assess qualitatively whether it is more likely than not that there is an impairment. The Company completed its annual quantitative analysis of its trademarks, other intangibles and goodwill at December 31, 2013 and determined that no further analysis or impairment charges were required.

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with ASC Topic 718 “Compensation - Stock Compensation”, by recognizing the fair value of stock-based compensation as an operating expense in the Company’s consolidated statements of operations. The fair value of the Company’s stock option awards are estimated using the Black-Scholes option valuation model and restricted stock awards are valued at the fair value of the Company’s stock at the time of grant. The Black-Scholes model requires the input of highly subjective assumptions and elections including expected stock price volatility and the estimated life of each award. Compensation cost for restricted stock is measured using the fair value of the Company’s common stock at the date the common stock is granted. The fair value of stock-based awards is amortized over the service period of the awards. Stock-based compensation that relates to contract performance is amortized over the term of the corresponding contract. For stock-based awards that vest based on performance conditions (e.g. achievement of certain milestones), expense is recognized when it is probable that the condition will be met. In addition, the calculation of compensation costs requires that the Company estimate the number of awards that will be forfeited during the vesting period.

Fair Value of Contingent Obligations

Management continues to analyze and quantify contingent obligations (expected earn-out payments) over the applicable pay-out period. Management will assess no less frequently than each reporting period the fair value of contingent obligations. Any change in the expected obligation will result in an expense or income recognized in the period in which it is determined the fair market value of the obligation has changed.

Income Taxes

Income tax expense is the tax payable for the period and the change during the period in deferred tax assets and liabilities. Deferred income taxes are determined based on the difference between the financial reporting and tax bases of assets and liabilities using enacted rates in effect during the year in which the differences are expected to reverse. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. ASC Topic 740, Accounting for Income Taxes clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. Tax positions shall initially be recognized in the financial statements when it is more likely than not that the position will be sustained upon examination by the tax authorities. Such tax positions shall initially and subsequently be measured as the largest amount of tax benefit that has a probability of fifty percent (50%) or greater of being realized upon ultimate settlement with the tax authority, assuming full knowledge of the position and all relevant facts.

Recently Issued Accounting Standards

In July 2012, the FASB issued ASU 2012-02, “*Intangibles—Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment.*” ASU 2012-02 simplifies the guidance for testing the decline in the realizable value (impairment) of indefinite-lived intangible assets other than goodwill. Examples of intangible assets subject to the guidance include indefinite-lived trademarks, licenses, and distribution rights. The standard applies to all public, private, and not-for-profit organizations. The amendments in this update are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. The Company did early adopt this ASU 2012-02. The adoption of ASU No. 2012-02 did not have a material impact on the Company’s results of operations or the Company’s consolidated financial position.

In July 2013, the FASB issued ASU 2013-11, "Income Taxes." (Topic 740): *Presentation of an Unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists.* This ASU's objective is to eliminate diversity in practice resulting from a lack of guidance on this topic in current U.S. GAAP. This ASU provides guidance on financial statement presentation of an unrecognized tax benefit when a net operating loss (NOL) carryforward, a similar tax loss, or a tax credit carryforward exists. This ASU applies to all entities with unrecognized tax benefits that also have tax loss or tax credit carryforwards in the same tax jurisdiction as of the reporting date and is effective for periods beginning after December 31, 2013. The Company does not have unrecognized tax benefits as of December 31, 2013 and therefore the adoption of ASU No. 2013-11 is not expected to have a material impact on the Company's results of operations or the Company's consolidated financial position.

Management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's consolidated financial statements.

Summary of Operating Results

The consolidated financial statements and related notes included elsewhere in this Form 10-K are as of, or for the year ended December 31, 2013 (the "Current Year"), and the year ended December 31, 2012 (the "Prior Year").

The Company had net income of \$1.53 million for the Current Year as compared to net income of \$4.28 million for the Prior Year.

The Company's operating income was \$1.86 million in the Current Year, compared to an operating income of \$5.69 million in the Prior Year.

Total Revenues.

Current Year total revenues increased approximately \$0.67 million to \$13.37 million from \$12.70 million for the Prior Year. This was primarily related to increases in net licensing fee revenues of \$1.12 million and net retail sales of \$0.20 million, partially offset by a decrease in design and service fees of \$0.65 million.

Design and Licensing Segment – Current Year net licensing and design and service fee revenues increased approximately \$0.47 million to \$13.17 million from \$12.70 million for the Prior Year. Almost all of our total revenues for the Current Year and all of the Prior Year were net licensing revenues and design and service fees. Net licensing revenues for the Current Year increased by \$1.12 million compared with the Prior Year primarily due to an increase in wholesale licensing of \$0.67 million and an increase in multi-media revenues of \$0.43 million. Current Year design and service fee revenue decreased by \$0.65 million compared with the Prior Year primarily due to lower short-term contract (non-recurring) service fees.

Retail Segment – The Company opened its first retail store in mid-June 2013 and reported net retail sales of \$0.20 million in the Current Year. There are no comparative results for the Prior Year.

Gross Profit.

Gross profit for the Current Year was \$13.28 million compared to \$12.70 million for the Prior Year.

Design and Licensing Segment – Design and licensing gross profit was \$13.17 million compared to \$12.70 million for the Prior Year, the same amount as our net revenues.

Retail Segment – Gross profit was \$0.11 million, approximately 54% of net retail sales in the Current Year. There are no comparative results for the Prior Year.

Operating Expenses.

Operating expenses totaled \$15.19 million for the Current Year compared to \$13.73 million for the Prior Year, an increase of \$1.46 million.

Design and Licensing Segment – Operating expenses totaled \$14.74 million for the Current Year compared to \$13.73 million for the Prior. This increase of approximately \$1.01 million was primarily related to an increase in compensation expense, including stock-based compensation of \$1.09 million, and partly off-set by a decrease in other operating expenses of \$0.08 million. The increase in compensation was primarily due to salary increases in accordance with employment agreements and operating growth.

Retail Segment – Operating expenses were \$0.45 million for the Current Year. The New York store opened for business in mid-June 2013 and had its first operations in the Current Year. During the Current Year, the Company began activities for its second retail store, located in Atlanta, GA, that opened during March 2014 and is scheduled to launch an e-commerce platform later this year. The Company's retail operating expenses were all attributable to the start and development of the retail business. There were no comparative results for the Prior Year.

Other expenses (income).

Total other expenses (income) was (\$3.77) million for the Current Year compared to (\$6.72) million for the Prior Year. The other expenses (income) for the Current Year consisted of a (\$5.12) million gain on reduction of contingent obligations and partly offset by a \$1.35 million loss on extinguishment of debt. The loss on extinguishment of debt was the result of the Company refinancing its Old Loan with the New Loan, with more favorable terms. The extinguishment of the Old Loan included a prepayment fee of \$0.19 million and an acceleration of deferred finance costs and loan discount of \$1.16 million resulting in a loss on extinguishment of debt of \$1.35 million. The Company reduced the fair value of its contingent obligation by \$5.12 million in the Current Year, resulting in a gain on reduction of contingent obligations. The reduction in the Earn-Out Obligation for the Current Year was based on (1) the amendment eliminating an earn-out for the annual period ending September 30, 2014 and (2) a revision of projected future net royalty income related to the Isaac Mizrahi Brand, therefore diminishing the probability of achieving the corresponding royalty targets. This adjustment results from the Company having better visibility in its 2015 royalties given current Isaac Mizrahi Brand product sales information. The other expenses (income) for the Prior Year consisted of a (\$6.30) million gain on reduction of contingent obligations and a \$0.42 million gain on extinguishment of debt. The gain on extinguishment of debt was the result of the early termination of an installment obligation by a payment of a combination of cash and stock for an amount less than the carrying value of the obligation. The Company reduced the fair value of its contingent obligation by \$6.30 million in the Prior Year, resulting in a gain on reduction of contingent obligations. See Note 5, Debt in the Notes to the Consolidated Financial Statements.

Operating Income.

Operating income for the Current Year decreased approximately \$3.83 million to \$1.86 million from \$5.69 million for the Prior Year based on the information provided in the revenue and operating expense and other expenses (income) sections above.

Design and Licensing Segment – Operating income for the Current Year decreased approximately \$3.49 million to \$2.20 million from \$5.69 million for the Prior Year. This is primarily driven by the net decrease in other expenses (income) of (\$2.95) million. After accounting for the change in other expenses (income), the resulting comparable operating income decreased by approximately \$0.54 million, attributable to an increase in operating expenses of \$1.01 million and offset by an increase in net revenues of \$0.47 million.

Retail Segment – Operating income (loss) for the Current Year was (\$0.34) million. The loss was primarily the result of the retail business launch in the Current Year which includes scaling retail operations and fixed overhead associated with our retail business.

Interest and Finance Costs.

Interest and finance costs for the Current Year decreased by approximately \$0.45 million to \$1.73 million compared to \$2.18 million in the Prior Year. This is primarily driven by the decrease in term loan interest of \$0.27 million and a decrease in the amortization of discounted debt and deferred finance costs of \$0.18 million

Provision for Income Taxes.

The effective income tax rate for the Current Year was approximately (1,077.7%) resulting in a \$1,402,000 income tax benefit. The effective income tax rate for the Prior Year was (22%) which resulted in \$766,000 of income tax benefit. The current year's income tax provision has been adjusted by (1,251%) to account for a permanent tax difference related to the gain on reduction of contingent obligations and an additional 198% adjustment related to other permanent differences, deferred tax adjustments and other miscellaneous adjustments.

Net Income.

Our net income was \$1.53 million in the Current Year, compared to net income of \$4.28 million in the Prior Year, as a result of the factors discussed above.

Adjusted EBITDA.

Adjusted EBITDA for the Current Year decreased approximately \$0.56 million to \$3.94 million from \$4.50 million for the Prior Year. The decrease was attributable to a decrease in non-recurring fee income of \$0.98 million and a net retail loss of \$0.34 million, partly offset by an increase in net licensing and design (recurring) revenues of \$1.44 million less an increase in operating expenses of \$0.68 million.

Adjusted EBITDA is a non- GAAP, unaudited term, defined as net income before interest expense and other financing costs (including gain (loss) on extinguishment of debt), income taxes, other state and local franchise taxes, depreciation and amortization, non-cash compensation and other non-cash income and (expenses) (including gain on reduction of contingent obligations). Management uses Adjusted EBITDA as a measure of operating performance to assist in comparing performance from period to period on a consistent basis and to identify business trends relating to the Company's results of operations.

The following table is a reconciliation of net income to Adjusted EBITDA

Liquidity and Capital Resources

Liquidity

Our principal capital requirements have been to fund working capital needs, and to a lesser extent, capital expenditures. At December 31, 2013 and 2012 our unrestricted cash and cash equivalents were \$7.46 million and \$3.93 million, respectively.

We expect that existing cash and operating cash flows will be adequate to meet our operating needs, debt service obligations and capital expenditure needs including the debt service under our term loan facilities for the next twelve months. We are dependent on our licensees for most of our revenues, and there is no assurance that the licensees will perform as projected.

Our design and licensing segment does not require significant capital expenditures. However, we opened our first retail store in June 2013 for which \$0.14 million of capital expenditures were incurred. We opened our second, store located in Atlanta, GA, in March 2014, incurring approximately \$0.06 million of capital expenditures during the Current Year. We expect the total capital expenditures for this store to be similar to our first store. Aside from these two locations, we currently have no commitments to open additional retail stores, but we are evaluating retail opportunities. We are planning to launch an e-commerce platform during 2014, which we incurred \$0.03 million of capital expenditures in the Current Year and don't expect additional capital expenditures to be significant. If we expand the retail business, we would be limited to the number of stores we could open without the consent of our lender. In accordance with the terms of the New Loan, we are limited each year to \$1.0 million of capital expenditures which is subject to increase by 10% of licensing revenues over \$15 million.

The Company's contingent obligations (See Note 5, Debt in the Consolidated Financial Statements) are payable in stock and/or cash, at the Company's discretion. Payment of these obligations in stock would not affect the Company's liquidity.

The Seller Note (See Note 5, Debt in the Consolidated Financial Statements) is payable in cash up to \$1.5 million beginning in 2015, of which \$1.0 million of the cash payment is subject to BHI's approval. The principal portion of the Seller Note not paid in cash is payable with stock and/or cash, at the Company's discretion. Payment of these obligations in stock would not affect the Company's liquidity. The Company made a cash principal payment in the Current Year of \$1.5 million.

Changes in Working Capital

At December 31, 2013 and December 31, 2012, the working capital ratio (current assets to current liabilities) was 4.79 to 1.00 and 2.45 to 1.00, respectively. Commentary on components of our cash flows for the Current Year as compared to the Prior Year is set forth below:

Operating Activities

Net cash provided by operating activities was approximately \$2.38 million and \$2.59 million in the Current Year and Prior year, respectively. The Current Year's cash provided by operating activities is primarily due to net income of \$1.53 million, adjusted for stock-based compensation of \$4.81 million, depreciation and amortization of \$0.89 million, non-cash interest and other finance costs of \$0.80 million, loss on extinguishment of debt of \$1.35 million, gain on reduction of contingent obligations of (\$5.12) million, deferred income tax benefit of (\$1.26) million, and partially offset by net change in operating assets and liabilities of (\$0.65) million. The Prior Year's, cash provided by operating activities is primarily due to net income of \$4.28 million, adjusted for stock-based compensation of \$4.62 million, depreciation and amortization of \$0.86 million, non-cash interest and other finance costs of \$0.93 million, gain on extinguishment of debt of (\$0.42) million, gain on reduction of contingent obligations of (\$6.30) million, deferred income tax benefit of (\$0.93) million, and partially offset by net change in operating assets and liabilities of (\$0.48) million.

Investing Activities

Net cash used in investing activities for the Current Year was approximately (\$0.51) million compared with (\$0.12) million in the Prior year, mostly attributable to capital expenditures. In the Current Year, \$0.24 million of capital expenditures was attributable to our retail segment.

Financing Activities

Net cash provided by financing activities for the Current Year was approximately \$1.66 million, primarily attributable to \$4.69 million of net proceeds (after expenses) from the issuance of common stock, \$0.21 million of net proceeds from refinancing \$12.38 million of the Old Loan with \$13.0 million gross proceeds of the New Loan, less prepayment fees and deferred loan costs of \$0.41 million, partly offset by repurchased shares of restricted stock that had vested totaling (\$0.62) million payment, (\$1.12) million in scheduled principal payments of the Old Loan, (\$1.50) million of principal payments for the Seller Note and (\$0.32) million of contingent obligations. Net cash used in financing activities for the Prior Year was approximately (\$1.26) million, primarily attributable to repurchased shares of restricted stock that had vested totaling (\$0.71) million payment and (\$0.55) million in installment debt obligation payments.

Obligations and Commitments

Term Loan (New Loan) – The New Loan requires us to pay current interest quarterly at 4.44% per annum. Principal payments began on October 1, 2014 of \$250,000 each quarter for the next four fiscal quarters, and increasing thereafter. The following table presents the principal payments under our term loan facility.

	Year Ending December 31,
2014	\$ 250,000
2015	1,375,000
2016	2,625,000
2017	3,125,000
2018	5,625,000
Total	<u>\$ 13,000,000</u>

In addition, the Company shall prepay the outstanding amount of the New Loan from excess cash flow (“Cash Flow Recapture”) for each fiscal year commencing with the year ending December 31, 2014 in arrears in an amount equal to twenty percent (20%) of such Cash Flow Recapture. Cash Flow Recapture shall mean for any fiscal period, cash provided by operating activities for such period less (a) capital expenditures not made through the incurrence of indebtedness less (b) all interest and principal (including indebtedness owed for the New Loan) paid or payable during such period less (c) all income tax payments made during such period. See Note 5, Debt in the Consolidated Financial Statements.

The Seller Note – The Company issued the Seller Note in the principal amount of \$7.38 million to IM Ready as partial consideration for the acquisition of the Isaac Mizrahi Business. The Seller Note was amended on December 24, 2013 which included a partial repayment of \$1.5 million of principal. The stated interest rate of the Seller Note is 0.25%, which was prepaid on September 29, 2011. See Note 5, Debt in the Consolidated Financial Statements. The following table presents the principal payments under our term loan facility.

Payment Date	Payment Amount	Amount Payable in Cash	Amount Payable in Cash with Restrictions (ii)	Amount Payable in Stock (iii)
December 24, 2013 (i)	\$ 1,500,000	\$ 1,500,000	\$ -	-
January 31, 2015	\$ 750,000	\$ 500,000	\$ 250,000	250,000
January 31, 2016	\$ 750,000	\$ -	\$ 750,000	750,000
September 30, 2016	\$ 4,377,432	\$ -	\$ -	4,377,432

- (i) \$1,500,000 was paid prior to December 31, 2013
- (ii) Amounts payable in cash with restrictions are subject to BHI, approving the cash payment. If BHI does not approve the cash payment, the amount shall be payable in shares of common stock. See Note 5, Debt in the Consolidated Financial Statements.
- (iii) This includes the last payment on the Amended Maturity Date and may include amounts payable in cash with restrictions whereby BHI provides approval and the amount would be paid with the Company’s common stock. See Note 5, Debt in the Consolidated Financial Statements.

Earn-out obligation - IM Ready is eligible to earn additional shares of common stock with a value of up to \$7.5 million (the “Earn-Out Value”) for the 12-month period ending September 30, 2015, with the number of shares to be issued based upon the greater of (i) \$4.50 per share and (ii) the average stock price for the last twenty days in such period, and with such earn-out payment contingent upon the Isaac Mizrahi Business achieving net royalty income targets (the “Earn-Out Obligation”). IM Ready was eligible to earn additional shares of common stock for the fiscal year ended September 30, 2013 and 2012, but did not meet the minimum net royalty income target. In addition, as of December 24, 2013, the Company and IM Ready amended the terms of the Earn-Out Obligation and eliminated additional consideration for the fiscal year ending September 30, 2014 and the Company agreed to make a one-time cash payment of \$315,000 to IM Ready. The Earn-Out Obligation of \$3.6 million and \$8.7 million are recorded as long term liabilities on the Company’s Consolidated Balance Sheets at December 31, 2013 and December 31, 2012, respectively. The Earn-Out Value is payable solely in stock. See Note 5, Debt, to the Notes to Consolidated Financial Statements for the royalty target and percentage of the potential earn-out value.

QVC Earn-out - The QVC Earn-Out payment requires the Company to pay IM Ready \$2.80 million, payable in cash or common stock, at the Company’s option, contingent upon the Isaac Mizrahi Business receiving aggregate net royalty income of at least \$2.5 million from QVC in the 12-month period ending September 30, 2015 with such stock based upon the greater of (x) \$4.50 per share, and (y) the average stock price for the last twenty days prior to the time of such issuance (the “QVC Earn-out”). The current term of the QVC Agreement runs through September 30, 2015. Management has determined that it is probable that the \$2.5 million in net royalty income from QVC will be met. Any change in the expected obligation will result in an expense or income in the period in which it is determined fair market value has changed.

Other

We believe that cash from future operations as well as currently available cash will be sufficient to satisfy our anticipated working capital requirements for the foreseeable future, including the debt service on the New Loan and making necessary upgrades to our infrastructure and technology and retail development. The combined principal obligations for the Company's debt during the next 12 months are \$0.25 million.

The non-cash obligations of the Seller Note and \$2.8 million of the contingent obligations under the earn-out provisions described above are payable in stock and or cash, at the Company's discretion and up to \$7.5 contingent obligations are payable solely in stock. Payment of these obligations in stock would not affect the Company's liquidity.

The following is a summary of contractual cash obligations, including interest for the periods indicated that existed as of December 31, 2013:

(000's)	2014	2015	2016	2017 & After	Total

The preceding table does not include commitments and obligations relating to the Ripka Assets acquired April 3, 2014. See Note 12, Subsequent Events in the Consolidated Financial Statements.

Other Factors

We continue to seek to expand and diversify the types of licensed products being produced under the Isaac Mizrahi Brand, and beginning in 2014 the Ripka Brand. We will seek to continue to diversify the distribution channels within which licensed products are sold, in an effort to reduce dependence on any particular retailer, consumer or market sector within each of our brands. Our acquisition of the Ripka Brand, whose core products have been in fine jewelry, helps diversify our industry focus (the Isaac Mizrahi Brand and LCNY Brand have a core business in fashion and accessories), while at the same time complementing, expanding and growing our overall business relationship with QVC. We also intend to seek new opportunities, including opening additional retail stores, international expansion through direct response television and licensing arrangements and acquiring additional brands. The success of our Company, however, will still remain largely dependent on our ability to build and maintain our brands awareness and contract with and retain key licensees and on our licensees' ability to accurately predict upcoming fashion and design trends within their respective customer bases and fulfill the product requirements of their particular retail channels within the global marketplace. Unanticipated changes in consumer fashion preferences, slowdowns in the U.S. economy, changes in the prices of supplies, consolidation of retail establishments, and other factors noted in "Risk Factors," could adversely affect our licensees' ability to meet and/or exceed their contractual commitments to us and thereby adversely affect our future operating results.

Income taxes

Our income tax (benefit) is based on an effective income tax rate, which is comprised of the federal statutory rate and a state and local tax rate, net of federal effect. Our state and local tax rate is affected by the location of earned revenue and certain incurred expenses in determining state and local income tax allocations. Accordingly, our state and local tax rate, net of federal effect may vary and could have a material impact on the fair value of our deferred tax assets and liabilities. See Note 9, Income taxes, to the Notes to Consolidated Financial Statements.

Effects of Inflation

We do not believe that the relatively moderate rates of inflation experienced over the past two years in the United States, where we primarily compete, have had a significant effect on revenues or profitability. If there were an adverse change in the rate of inflation by less than 10%, the expected effect on net income would be immaterial.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, results of operations or liquidity.

SELLING SECURITY HOLDERS

The resale shares offered under this prospectus may be sold from time to time for the account of the selling stockholders named in the following table. The table also contains information, to our knowledge, regarding each selling stockholder's beneficial ownership of shares of our common stock as of May 1, 2014, and as adjusted to give effect to the assumed sale of all of the resale shares registered hereby. As of May 1, 2014, we had 11,434,188 shares of common stock outstanding. A person is deemed to be the beneficial owner of securities that can be acquired by such person within 60 days from May 1, 2014. Accordingly, each beneficial owner's percentage ownership is determined by assuming that options and warrants that are held by such person (but not held by any other person) and which are exercisable within 60 days from May 1, 2014 have been exercised. Except as otherwise indicated, each person shown in the table has sole voting and investment power with respect to the shares of common stock listed next to his name. The address for each selling shareholder, unless otherwise noted, is c/o Xcel Brands, Inc. at 475 Tenth Avenue, 4th Floor, New York, NY 10018.

Each Selling Security holder (the “Selling Security Holder”) of the common stock and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock on the OTC Bulletin Board or any other stock exchange, market or trading facility on which the shares are traded or in private transactions.

A Selling Security Holder may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;

- privately negotiated transactions;
- settlement of short sales entered into after the effective date of the registration statement of which this prospectus is a part;
- broker-dealers may agree with the Selling Security Holder to sell a specified number of such shares at a stipulated price per share;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The Selling Security Holders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Security Holders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Security Holders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA NASD Rule 2440; and in the case of a principal transaction a markup or markdown in compliance with NASD IM-2440.

In connection with the sale of the common stock or interests therein, the Selling Security Holders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the common stock in the course of hedging the positions they assume. The Selling Security Holders may also sell shares of the common stock short and deliver these securities to close out their short positions, or loan or pledge the common stock to broker-dealers that in turn may sell these securities. The Selling Security Holders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Security Holders and any broker-dealers or agents that are involved in selling the shares may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Each Selling Security Holder has informed us that it does not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the common stock. In no event shall any broker-dealer receive fees, commissions and markups which, in the aggregate, would exceed eight percent (8%).

We are required to pay certain fees and expenses incurred incident to the registration of the shares. We have agreed to indemnify the Selling Security Holders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Because Selling Security Holders may be deemed to be “underwriters” within the meaning of the Securities Act, they will be subject to the prospectus delivery requirements of the Securities Act including Rule 172 thereunder. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 under the Securities Act may be sold under Rule 144 rather than under this prospectus. There is no underwriter or coordinating broker acting in connection with the proposed sale of the resale shares by the Selling Security Holders.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the shares have been resold, or (ii) may be resold without regard to any volume or manner-of-sale restrictions pursuant to Rule 144, without the requirement for us to be in compliance with the current public information under Rule 144 under the Securities Act or any other rule of similar effect. The resale shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale shares may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Security Holders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of the common stock by the Selling Security Holders or any other person. We will make copies of this prospectus available to the Selling Security Holders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

Almost immediately Judith gained a loyal following and became known for her classic-with-a-modern-twist design sensibility. She designed each piece with certain constant design features so that collections from 20 years ago can be worn with those of today. Commencing with the first annual meeting of stockholders held after the adoption of the Restated & Amended Bylaws, the Class I directors will serve until the following annual meeting of stockholders, the Class II directors until the next successive annual meeting of stockholders, and the Class III directors until the third annual meeting of stockholders, in each case, until their successor(s) are duly elected and qualified or until their earlier resignation or removal. At each annual meeting of stockholders commencing with the first annual meeting following the adoption of the Restated & Amended Bylaws, each of the successors to the directors of the Class whose term shall have expired that year shall be elected for a three-year term.

So long as a principal of Earthbound serves as a member on the board of directors of the Company (Jack Dweck, a principal of Earthbound, has agreed to serve as a director), Earthbound has the right to appoint a board observer. Earthbound appointed Jeff Cohen, a principal of Earthbound and a principal stockholder of the Company, to be its observer on the board of directors of the Company. As an observer, Mr. Cohen has the right to attend and observe all general meetings of the board of directors, but he has no other rights (including voting rights) and receives no compensation from the Company.

2011 Equity Incentive Plan

The Company's 2011 Equity Incentive Plan (the "Plan") is designed and utilized to enable the Company to offer its employees, officers, directors, consultants and others whose past, present and/or potential contributions to the Company have been, are or will be important to the success of the Company, an opportunity to acquire a proprietary interest in the Company. The Company, with the approval of a majority of its shareholders and Board of Directors, amended and restated the Plan effective November 26, 2012.

- The Plan provides for the grant of stock options or restricted stock (any grant under the Plan, an "Award"). The stock options may be incentive stock options or non-qualified stock options.
- A total of 5,000,000 shares of common stock are eligible for issuance under the Plan, and the maximum number of shares of common stock with respect to which incentive stock options may be granted under the Plan is 2,000,000.
- The Plan may be administered by the Board of Directors or a committee consisting of two or more members of the Board of Directors appointed by the Board (for purposes of this description, any such committee, a "Committee").
- Officers and other employees of our Company or any parent or subsidiary of our Company who are at the time of the grant of an Award employed by us or any parent or subsidiary of our Company are eligible to be granted options or other Awards under the Plan. In addition, non-qualified stock options and other Awards may be granted under the Plan to any person, including, but not limited to, directors, independent agents, consultants and attorneys who the Board or the Committee, as the case may be, believes has contributed or will contribute to our success.
- With respect to incentive stock options granted to an eligible employee owning stock possessing more than 10% of the total combined voting power of all classes of our stock or the stock of a parent or subsidiary of our Company immediately before the grant (each, a "10% Stockholder"), such incentive stock option shall not be exercisable more than 5 years from the date of grant.
- The exercise price of an incentive stock option will not be less than the fair market value of the shares underlying the option on the date the option is granted, provided, however, that the exercise price of an incentive stock option granted to a 10% Stockholder may not be less than 110% of such fair market value.
- The exercise price of a non-qualified stock option may not be less than fair market value of the shares of common stock underlying the option on the date the option is granted.

- Under the Plan, we may not, in the aggregate, grant incentive stock options that are first exercisable by any individual optionee during any calendar year (under all such plans of the optionee's employer corporation and its "parent" and "subsidiary" corporations, as those terms are defined in Section 424 of the Internal Revenue Code) to the extent that the aggregate fair market value of the underlying stock (determined at the time the option is granted) exceeds \$100,000.
- Certain Awards made under the Plan may be granted so that they qualify as "performance-based compensation" (as this term is used in Internal Revenue Code Section 162(m) and the regulations thereunder) and are exempt from the deduction limitation imposed by Code Section 162(m) (these Awards are referred to as "Performance-Based Awards"). Under Internal Revenue Code Section 162(m), our tax deduction may be limited to the extent total compensation paid to the chief executive officer, or any of the four most highly compensated executive officers (other than the chief executive officer) exceeds \$1 million in any one tax year. Among other criteria, Awards only qualify as performance-based awards if at the time of grant the compensation committee is comprised solely of two or more "outside directors" (as this term is used in Internal Revenue Code Section 162(m) and the regulations thereunder). In addition, we must obtain stockholder approval of material terms of performance goals for such "performance-based compensation."
- All stock options and certain stock awards, performance awards, and stock units granted under the Plan, and the compensation attributable to such Awards, are intended to (i) qualify as performance-based awards or (ii) be otherwise exempt from the deduction limitation imposed by Internal Revenue Code Section 162(m).
- No options or other Awards may be granted on or after the tenth anniversary of the effective date of the Plan.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Todd Slater

On September 29, 2011, the Company entered into an agreement which was amended on October 4, 2011, with Todd Slater, who was appointed as a director of the Company commencing on October 17, 2011, for services related to the Company's licensing strategy and introduction of potential licensees. During the term of the agreement or during the year following the expiration of the term of the agreement, if the Company enters into a license or distribution agreement with a licensee introduced by Mr. Slater, Mr. Slater was entitled to receive a commission equal to fifteen percent (15%) of all net royalties received by the Company during the first term of such agreement, payable within thirty days of receipt of the net royalties.

On July 10, 2012, the Company and Mr. Slater entered into an amendment (the "Amendment") to the agreement. Pursuant to the Amendment, the Company paid to Mr. Slater \$163,000 as payment in full for (i) the cancellation of all amounts which are or may otherwise become due or payable to Mr. Slater under the terms of the agreement for licensees already introduced to the Company by Mr. Slater and which Mr. Slater was entitled to fifteen percent (15%) of the revenues from such licensees under the agreement, and (ii) the assignment to the Company of all such amounts payable directly to Mr. Slater pursuant to such license agreements. The Company has capitalized this payment and amortizes the expense in accordance with the revenue earned from the respective licensing agreements on which this payment was based upon.

On June 5, 2013, the Company paid Threadstone Advisors, LLC ("Threadstone") a fee of \$280,000 for the placement of \$4,000,000 of proceeds from the Offering (See Note 6, Stockholders' Equity). Mr. Slater is an officer and a 5% owner of Threadstone.

Licensing Agent Agreement

On August 2, 2011, the Company entered into a licensing agent agreement with to Adam Dweck ("AD"), who is an Executive Vice President of Earthbound, LLC ("Earthbound") and the son of Jack Dweck, who is a principal of Earthbound and is on the Company's board of directors, pursuant to which he is entitled to a five percent (5%) commission on any royalties we receive under any new license agreements that he procures for us during the initial term of such license agreements.

We are also obligated to grant to AD Warrants to purchase 12,500 shares of Common Stock at an exercise price of \$5.00 per share, subject to AD generating \$0.5 million of accumulated royalties and additional Warrants to purchase 12,500 shares of Common Stock at an exercise price of \$5.00 per share, subject to AD generating \$1.0 million of accumulated royalties. These Warrants expire on August 2, 2016. As of December 31, 2013, AD has reached the first milestone of \$0.5 million sourced royalties and it is likely AD will reach the second milestone of \$1.0 million of AD sourced royalties by August 2, 2016. On October 4, 2013 the Company issued Warrants to AD to purchase 25,000 shares of Common Stock of which 12,500 vest immediately and 12,500 vest upon achieving the second milestone. The fair value of these Warrants was estimated at \$2,500 on the grant date using the Black-Scholes option pricing method, of which half has been recorded as a royalty commission expense in the Current Quarter and is recorded as a reduction of net licensing revenues on the unaudited condensed consolidated statements of operations. The balance of the Warrants will be expensed evenly over the next 15 months, the period when the second milestone is estimated to occur. Additionally, AD shall be entitled to receive Warrants to purchase an additional 25,000 shares of Common Stock priced at the fair market value at the time of issuance, subject to AD generating \$2.0 million of accumulated royalties. These Warrants also all expire on August 2, 2016.

The Company incurred direct licensing costs with AD of \$20,000 and \$13,000 for the Current Year and the Prior Year, respectively.

IM Ready-Made, LLC

On December 24, 2013, the Company, IM Brands, LLC., a wholly-owned subsidiary of the Company (“IMB”, together with the Company, the “Buyers”), IM Ready, Isaac Mizrahi and Marissa Gardini (together with Isaac Mizrahi, the “Individuals”) entered into the Fifth Amendment (the “Amendment”) to the Asset Purchase Agreement dated as of May 19, 2011 (the “Agreement”). Pursuant to the Amendment, the IM Ready and the Individuals acknowledged and agreed that no Earn-Out Shares (as defined in the Agreement) were earned for the twelve month periods ended September 30, 2013 and ending September 30, 2014, regardless of whether the criteria for the issuance of such shares are or shall in the future be satisfied. As partial consideration for the execution of the Amendment, (i) the original promissory note issued pursuant to the agreement (the “Original Note”) was amended and restated as described below (the “New Note”) and the Voting Agreement entered into in connection with the Agreement was amended and restated (the “Amended and Restated Voting Agreement”) as described below.

The New Note is due as to \$1,500,000 principal amount on the date of its execution (of which \$500,000 was prepaid on September 27, 2013 and the remaining \$1,000,000 was paid upon execution); and becomes due as to (i) \$750,000 principal amount shall become due and payable on January 31, 2015 (the “First Interim Payment”), (ii) \$750,000 principal amount shall become due and payable on January 31, 2016 (the “Second Interim Payment” and together with the “First Interim Payment”, the “Interim Payments”) and (iii) the remaining unpaid balance shall become due and payable September 30, 2016 (the “Maturity Date”) subject to extension to the first business day following September 30, 2018 (the date to which the maturity date of the New Note is extended is referred to as the “Subsequent Maturity Date”). We have the right to make the Interim Payments in cash or in shares of Common Stock (except for \$500,000 of the First Interim Payment, which must be paid in cash), provided, that if we receive the consent of our senior lenders to make such payments in cash, we must make such payments in cash.

At any time the New Note is outstanding, we have the right to convert the New Note, in whole or in part, into the number of shares of Common Stock obtained by dividing the principal amount to be converted by the Average Trading Price 9 of the Common Stock at the time of the conversion, so long as the Average Trading Price of our Common Stock is at least \$4.50. In addition, we have the right to pay the outstanding balance of the New Note at the Maturity Date or Subsequent Maturity Date (if the Maturity Date of the New Note is extended), in shares of Common Stock by dividing the outstanding principal amount of the New Note by the Average Trading Price. “Average Trading Price” means the average per share closing price of the Common Stock for the twenty consecutive trading days ending on the trading day immediately preceding the date of payment.

If we elect to make Interim Payments by issuing shares of Common Stock, the number of shares issuable will be obtained by dividing the principal amount of the New Note then outstanding by the greater of (i) the Average Trading Price on the date such Interim Payment is due, and (ii) \$4.50 subject to certain adjustments; provided, however, that if the Average Trading Price is less than \$4.50 as adjusted, IM Ready will have the option to extend the date such Interim Payment is due until the Maturity Date. If an Interim Payment is so extended, IM Ready will have the option to convert the Interim Payment that was so extended into a number of shares of Common Stock as determined by dividing the principal amount by the Interim Payment that was so extended by \$4.50, subject to certain adjustments.

Pursuant to the Amended and Restated Voting Agreement, each of IM Ready, Mr. Mizrahi and Ms. Gardini has agreed to appoint a person designated by the board of directors of the Company as their irrevocable proxy and attorney-in-fact with respect to the shares of the Common Stock received and which may be received by IM Ready, Mr. Mizrahi and/or Ms. Gardini in connection with the Company’s September 2011 acquisition of the Isaac Mizrahi Brands (the “IM Brands”) (including shares which may be issued in satisfaction of the earn-out payments or the New Note and the shares of Common Stock to be issued to Mr. Mizrahi and Ms. Gardini pursuant to the certain restricted stock agreements dated as of December 24, 2013. The proxy holder shall vote in favor of matters recommended or approved by the board of directors. The Board of Directors appointed Robert D’Loren as proxy and attorney-in-fact on such shares.

The Company and IM Ready had balances owed between the companies relating to the transition of the Isaac Mizrahi Business and certain payments assigned to the Seller by QVC under the QVC Agreement. As of December 31, 2013, the Company owed IM ready \$459,000 and as of December 31, 2012, IM Ready owed the Company \$68,000. The Company did not earn any revenue or incur any expenses with IM Ready-Made, LLC since the Closing Date.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and
Stockholders of Xcel Brands, Inc.

We have audited the accompanying consolidated balance sheets of Xcel Brands, Inc. and Subsidiaries as of December 31, 2013 and 2012, and the related consolidated statements of operations, stockholders' equity, and cash flows for the years then ended. Xcel Brands, Inc. and Subsidiaries' management is responsible for these consolidated financial statements. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Xcel Brands, Inc. and Subsidiaries as of December 31, 2013 and 2012, and the consolidated results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

XCEL BRANDS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2013

1. NATURE OF OPERATIONS, BACKGROUND AND BASIS OF PRESENTATION

Xcel Brands, Inc. (“Xcel” and together with its subsidiaries, the “Company”) was incorporated on August 31, 1989 in the State of Delaware under the name Houston Operating Company. On April 19, 2005, we changed our name to NetFabric Holdings, Inc. and on September 29, 2011 we changed our name to Xcel Brands, Inc. The Company engages in the design, licensing, marketing and retail sales of consumer brands, including the Isaac Mizrahi Brand and certain rights of the Liz Claiborne New York brand (“LCNY”) and the Judith Ripka Brand (the “Ripka Brand”), which we acquired on March 26, 2014 (see Note 12, Subsequent Events). The Company operates in two segments - (1) Design and Licensing and (2) our Retail Business.

Our Design and Licensing business operates in a “working capital light” business model, wherein we license our brands to third parties, provide certain design services, and generate royalty and design and service fee revenues through licensing and other agreements with wholesale manufacturers, sourcing and design companies, and retailers. This includes licensing our own brands for promotion and distribution through an Omnichannel retail sales strategy including distribution through direct-response television (i.e. QVC, Inc. (“QVC”) and The Shopping Channel), the internet, and traditional bricks-and-mortar retail channels. The Isaac Mizrahi Brand and LCNY brand are licensed through our wholly-owned subsidiary IM Brands, LLC (“IM Brands”)(the “Isaac Mizrahi Business”) and the Ripka Brand is licensed through our wholly-owned subsidiary, JR Licensing, LLC (“JR Licensing”).

The Company’s Retail Business operates through its wholly-owned subsidiary, IMNY Retail Management, LLC (“Retail Management”), and was launched in June 2013 opening the Company’s first retail store located in Southampton, New York. The Company opened its second retail store, an outlet store, located near Atlanta, GA, on March 2, 2014. Also, Retail Management plans to launch an e-commerce platform later in 2014.

Certain reclassifications have been made to the prior period consolidated financial statements to conform to the current period presentation.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of Xcel Brands, Inc. and its wholly-owned subsidiaries as of and for the years ended December 31, 2013 (the “Current Year”) and December 31, 2012 (the “Prior Year”). The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and in accordance with the Securities and Exchange Commission’s (the “SEC”) accounting rules under Regulation S-X. All material intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the year. Actual results could be affected by those estimates.

Cash and Cash Equivalents

The Company considers all highly-liquid investments with original maturities of three months or less to be cash equivalents.

Fair Value of Financial Instruments

For certain of the Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued expenses and other current liabilities, the carrying amounts approximate fair value due to the short-term maturities of these instruments. The carrying value of the debt approximates fair value because the fixed interest rate approximates current market rate and in the instances it does not, the impact on the time value is not material. When debt interest rates are below market rates, the Company considers the discounted value of the difference of actual interest rate and its internal borrowing against the scheduled debt payments.

Fair Value

The Financial Standards Accounting Board's ("FASB") accounting standard codification ("ASC") Subtopic 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Subtopic 820-10 outlines a valuation framework, creates a fair value hierarchy in order to increase the consistency and comparability of fair value measurements, and details the disclosures that are required for items measured at fair value. We have contingent obligations that are required to be measured at fair value on a recurring basis. Our contingent obligations were measured using inputs from level 3 of the fair value hierarchy, which states:

Level 3 – unobservable inputs that reflect our assumptions that market participants would use in pricing assets or liabilities based on the best information available. The Company's earn-out obligation (See Note 5, Debt) is based upon certain projected net royalty revenues as defined in the terms and conditions of the acquisition of the Isaac Mizrahi Brand.

Accounts Receivable

Accounts receivable are reported, net of allowance for doubtful accounts. Allowance for doubtful accounts are based on the Company's ongoing discussions with its licensees, and its evaluation of each licensee's payment history and account aging. As of December 31, 2013 and 2012, the Company had \$3,541,000 and \$3,428,000 of accounts receivable, net of allowance for doubtful accounts of \$39,000 and \$25,000, respectively. The accounts receivable balance includes \$174,000 and \$699,000 of earned revenue that has been accrued but not billed as of December 31, 2013 and December 31, 2012, respectively.

Property and Equipment

Furniture, equipment and software are recorded at cost and depreciated using the straight-line method over their estimated useful lives, generally three (3) to seven (7) years. Leasehold improvements are amortized over the shorter of their estimated useful lives or the terms of the leases. Betterments and improvements are capitalized, while repairs and maintenance are expensed as incurred.

Trademarks, Goodwill and Other Intangible Assets

The Company follows FASB, ASC Topic 350 "Intangibles - Goodwill and Other". Under this standard, goodwill and indefinite lived assets are not amortized. The Company's definite lived intangible assets are amortized over their estimated useful lives of 4 to 5 years.

Under this standard, the Company annually has the option to first assess qualitatively whether it is more likely than not that there is an impairment. The Company completed its annual quantitative assessment analysis of its trademarks, other intangibles and goodwill at December 31, 2013 and determined that no further analysis or impairment charges were required.

Deferred Finance Costs

The Company incurred costs (primarily professional fees and underwriting fees) in connection with borrowings under the senior secured term loan. These costs have been deferred and are being amortized using the straight-line method over the life of the related debt.

Inventory

Inventories are stated at the lower of cost or market using the first in first out ("FIFO") method. All inventories consist of finished goods and are located at the retail store location. The Company periodically reviews the value of items in inventory and provides write-downs or write-offs of inventory based on its assessment of market conditions. Write-downs, write-offs and shrinkage are charged to cost of goods sold. In the Current Year, the Company experienced shrinkage of \$5,000. There were no retail operations or inventory in the Prior Year.

Contingent Obligations

Management analyzes and quantifies the expected contingent obligations (expected earn-out payments) over the applicable pay-out period. Management assesses no less frequently than each reporting period the status of contingent obligations and any expected changes in the fair market value of such contingent obligations. Any change in the expected obligation will result in expense or income recognized in the period in which it is determined fair value has changed. Contingent obligations have been reduced by \$5.1 million and \$6.3 million during the Current Year and the Prior Year, respectively, and have been recorded as gains on the reduction of contingent obligations and included in operating income in the Company's consolidated statements of operations (see Note 5, Debt).

Income Taxes

Income tax expense consists of the tax payable for the period and the change during the period in deferred tax assets and liabilities. Deferred income taxes are determined based on the difference between the financial reporting and tax bases of assets and liabilities using enacted rates in effect during the year in which the differences are expected to reverse. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

ASC Topic 740 "Accounting for Income Taxes" clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. Tax positions shall initially be recognized in the financial statements when it is more likely than not that the position will be sustained upon examination by the tax authorities. Such tax positions shall initially and subsequently be measured as the largest amount of tax benefit that has a probability of fifty percent (50%) or greater of being realized upon ultimate settlement with the tax authority, assuming full knowledge of the position and all relevant facts.

The Company has no unrecognized tax benefits as of December 31, 2013 and December 31, 2012. The Company's U.S. Federal, state and local income tax returns are closed prior to fiscal year 2010 and management continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings.

If applicable, the Company would recognize interest and penalties associated with tax matters as part of the income tax provision, and include accrued interest and penalties with accrued expenses in the consolidated balance sheets.

Revenue Recognition

Licensing revenue is generated from licenses and is based on reported sales of licensed products bearing our trademarks, at royalty rates specified in the license agreements. These agreements are also subject to contractual minimum levels.

Design and service fees are recorded and recognized in accordance with the terms and conditions of each service contract, including the Company meeting its obligations and providing the relevant services under each contract. Generally, we record on a straight-line basis, each base fee as stated in each service agreement for the covered period and, if applicable, we recognize additional payments received that relate to a future period as deferred revenue, until service is provided or revenue is otherwise earned.

We recognize revenue from our retail store upon sale of our products to retail consumers, net of estimated returns.

Concentrations of Credit Risk

Financial instruments which potentially subject us to concentrations of credit risk consist principally of cash and cash equivalents, and accounts receivable. We limit our credit risk with respect to cash by maintaining cash balances with high quality financial institutions. At times our cash and cash equivalents may exceed federally insured limits. Concentrations of credit risk with respect to accounts receivable are minimal due to the limited amount of outstanding receivables and due to the nature of our royalty revenues. Generally, we do not require collateral or other security to support accounts receivables.

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with ASC Topic 718 “Compensation - Stock Compensation”, by recognizing the fair value of stock-based compensation as an operating expense in the Company’s consolidated statements of operations. Stock-based compensation can include stock options and restricted stock grants.

Stock Options - The fair value of the Company’s stock option awards are estimated using the Black-Scholes option valuation model. This model requires the input of highly subjective assumptions and elections including expected stock price volatility and the estimated life of each award.

Restricted Stock - Compensation cost for restricted stock is measured using the fair value of the Company’s common stock at the date the common stock is granted. The compensation cost is recognized over the period between the grant date and the date any restrictions lapse. For stock-based awards that vest based on performance conditions (e.g. achievement of certain milestones), expense is recognized when it is probable that the condition will be met.

The calculation of compensation costs requires that the Company estimate the number of awards that will be forfeited during the vesting period. The fair value of stock-based compensation is amortized over the service period of the awards.

Advertising Costs

All costs associated with production for the Company’s advertising campaigns are expensed during the periods when the activities take place. All other advertising costs such as print and online media are expensed when the advertisement occurs. The Company incurred no advertising costs for the Current Year and Prior Year.

Operating Leases

Total rent payments under operating leases that include scheduled payment increases and rent holidays are amortized on a straight-line basis over the term of the lease. Landlord allowances are amortized by the straight-line method over the term of the lease as a reduction of rent expense.

Earnings per Share

Basic earnings per share excludes dilution and is computed by dividing net income (or loss) available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflect, in periods in which they have a dilutive effect, the effect of common shares issuable upon the exercise of stock options and Warrants using the treasury stock method. The difference between basic and diluted weighted-average common shares results from the assumption that all dilutive stock options, Warrants and restricted stock outstanding were exercised into common stock if the effect is anti-dilutive.

Recently Issued Accounting Standards

In July 2012, the FASB issued ASU 2012-02, “Intangibles—Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment.” ASU 2012-02 simplifies the guidance for testing the decline in the realizable value (impairment) of indefinite-lived intangible assets other than goodwill. Examples of intangible assets subject to the guidance include indefinite-lived trademarks, licenses, and distribution rights. The standard applies to all public, private, and not-for-profit organizations. The amendments in this update are effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. The Company did early adopt this ASU 2012-02. The adoption of ASU No. 2012-02 did not have a material impact on the Company’s results of operations or the Company’s consolidated financial position.

In July 2013, the FASB issued ASU 2013-11, "Income Taxes." (Topic 740): *Presentation of an Unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists.* This ASU's objective is to eliminate diversity in practice resulting from a lack of guidance on this topic in current U.S. GAAP. This ASU provides guidance on financial statement presentation of an unrecognized tax benefit when a net operating loss (NOL) carryforward, a similar tax loss, or a tax credit carryforward exists. This ASU applies to all entities with unrecognized tax benefits that also have tax loss or tax credit carryforwards in the same tax jurisdiction as of the reporting date and is effective for periods beginning after December 31, 2013. The Company does not have unrecognized tax benefits as of December 31, 2013 and therefore the adoption of ASU No. 2013-11 is not expected to have a material impact on the Company's results of operations or the Company's consolidated financial position.

Management does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's consolidated financial statements.

The Isaac Mizrahi Brand Trademarks and related goodwill have been determined to have an indefinite useful life and accordingly, consistent with ASC Topic 350, no amortization has been recorded in the Company's consolidated statements of operations.

The Company has \$12,371,000 of goodwill that represents the excess of the purchase price over the fair value of net assets acquired accounted for under the acquisition method of accounting relating to the acquisition of the Isaac Mizrahi Business. There was no change in goodwill during the Current Year.

4. Significant Contracts

QVC Agreement

In connection with the Company's agreement with QVC, they are required to pay fees based primarily on a percentage of its net sales of Isaac Mizrahi branded merchandise. Licensing revenues from QVC totaled \$8.13 million and \$7.69 million for the Current Year and the Prior Year, respectively, representing 61% of the Company's total revenues each year. As of December 31, 2013 and December 31, 2012, the Company had a receivable from QVC in the amount of \$2.06 million and \$1.90 million, respectively, representing 55% of the Company's receivables each year. The December 31, 2013 QVC receivable includes \$152,000 of earned revenue that has been accrued but not billed as of December 31, 2013.

LCNY Agreement

In connection with the Company's agreement with Kate Spade and Company (formerly Fifth & Pacific Companies, Inc. and formerly Liz Claiborne, Inc.) ("KSC") (the "LCNY Agreement"), KSC is required to pay the Company royalties based primarily on a percentage of royalties KSC receives from QVC under a separate license agreement between KSC and QVC. Revenues from the LCNY Agreement totaled \$1.57 million and \$1.71 million for the Current Year and the Prior Year, respectively, representing 12% and 13% of the Company's total revenues, respectively. As of December 31, 2013 and December 31, 2012, the Company had a receivable from KSC in the amount of \$0.61 million and \$0.70 million, respectively, representing 18% and 20% of the Company's receivables, respectively.

5. Debt

The Company's net carrying amount of debt is comprised of the following:

	December 31,	
	2013	2012

Term Loan- Old Loan

On September 29, 2011 (the "Closing Date"), IM Brands, a wholly-owned subsidiary of the Company, entered into a five-year senior secured facility (the "Old Loan") with MidMarket Capital Partners, LLC ("MidMarket") and Noteholders in the aggregate principal amount of \$13,500,000. The Loan was secured by all of the assets of IM Brands and the Company's membership interests in IM Brands.

The principal amount of the Loan was payable quarterly as follows: 2.5% on January 5, 2013 through October 5, 2013; 3.75% on January 5, 2014 through October 5, 2014; 6.25% on January 5, 2015 through October 5, 2015; 12.5% on January 5, 2016 through the maturity date, which is the date that is 5 years after the Closing Date.

The interest rate on the Loan was a fixed rate of 8.5%, payable in cash.

Optional Prepayment. IM Brands could have prepaid the Old Loan in whole or in part in increments of \$500,000, provided that IM Brands paid the following premiums in connection with the prepayment:

Period	Applicable Premium
Prior to September 29, 2013	2%
Prior to September 29, 2014	1%
On or After September 29, 2014	0%

New Term Loan

On August 1, 2013, the Company extinguished the Old Loan with proceeds from a new \$13.0 million, 5-year term loan with Bank of Hapoalim B.M. ("BHI") (the "New Loan"). The New Loan is secured by all of the assets of IM Brands and the Company's membership interest in IM Brands and bears interest at an annual fixed rate of 4.44% payable quarterly in arrears each calendar quarter. Scheduled principal payments are as follows:

Date of Payment	Amount of Principal Payment
October 1, 2014, January 1, 2015, April 1, 2015 and July 1, 2015	\$ 250,000
October 1, 2015, January 1, 2016, April 1, 2016 and July 1, 2016	\$ 625,000
October 1, 2016, January 1, 2017, April 1, 2017 and July 1, 2017	\$ 750,000
October 1, 2017, January 1, 2018 and April 1, 2018	\$ 875,000
July 1, 2018	\$ 3,875,000

In addition, the Company is required to prepay the outstanding amount of the New Loan from excess cash flow (“Cash Flow Recapture”) for each fiscal year commencing with the year ending December 31, 2014 in arrears in an amount equal to twenty percent (20%) of such Cash Flow Recapture. Cash Flow Recapture for any fiscal period is defined as, cash provided by operating activities for such period less (a) capital expenditures not made through the incurrence of indebtedness less (b) all interest and principal (including indebtedness owed for the New Loan) paid or payable during such period less (c) all income tax payments made during such period.

On August 1, 2013, the extinguishment of the Old Loan resulted in an approximate loss on extinguishment of debt of \$1,351,000, consisting of \$381,000 of unamortized deferred costs, \$781,000 from acceleration of the loan discount, and \$189,000 for prepayment fees and expenses of the Old Loan. The prepayment fee was equal to 1.5% of the outstanding balance of the Old Loan immediately before the extinguishment.

Financial Covenants. The Company is required to maintain minimum fixed charge ratio and liquidity covenants, a maximum leverage ratio covenant and other non-monetary covenants, including reporting requirements and trademark preservation in accordance with the terms and conditions of the New Loan. As of December 31, 2013, the Company and IM Brands were in full compliance with all of the covenants under the New Loan.

Seller Note

On the Closing Date, the Company delivered to IM Ready-Made, LLC (“IM Ready”) a promissory note (the “Seller Note”) in the principal amount of \$7,377,000. The stated interest rate of the Seller Note is 0.25%. Management has determined that this rate was below the Company’s expected borrowing rate, which was 9.25% on the Closing Date. Therefore, the Company has discounted the Seller Note by \$1,740,000 using a 9.0%, imputed annual interest rate, resulting in an initial value of \$5,637,000. In addition, the Company pre-paid \$123,000 of interest on the Seller Note on the Closing Date. The discount is amortized into (increases) the basis of the Seller Note over the term of the Seller Note.

The Seller Note was initially scheduled to mature on September 29, 2014 (the “Maturity Date”) subject to extension as described below (the date to which the maturity date of the Seller Note is extended is referred to as the “Subsequent Maturity Date”). We have the right to pay the Seller Note at the Maturity Date in cash or, subject to the following conditions, in shares of common stock. If we elect to repay the outstanding principal amount of the Seller Note on the Maturity Date by issuing shares of common stock, the number of shares issuable will be obtained by dividing the principal amount of the Seller Note then outstanding by the greater of (i) the fair market value of the common stock on the Maturity Date and (ii) \$4.50 subject to certain adjustments; provided, however, that if the fair market value of the common stock is less than \$4.50 as adjusted, IM Ready will have the option to extend the maturity of the Seller Note to the Subsequent Maturity Date. If the maturity date of the Seller Note is so extended, IM Ready will have the option to convert the Seller Note into Common Shares based on the greater of (i) the fair market value of the common stock on the Subsequent Maturity Date and (ii) \$4.50, subject to certain adjustments. If the maturity date of the Seller Note is extended, we will also have the option to repay the outstanding principal amount of the Seller Note on the Subsequent Maturity Date in cash or by issuing the number of shares of common stock obtained by dividing the principal amount of the Note outstanding on the Subsequent Maturity Date by the fair market value of the common stock on the Subsequent Maturity Date. In addition, at any time the Seller Note is outstanding, we have the right to convert the Note, in whole or in part, into the number of shares of common stock obtained by dividing the principal amount to be converted by the fair market value of the common stock at the time of the conversion, so long as the fair market value of our common stock is at least \$4.50.

On December 24, 2013, the Seller Note was amended (1) revising the Maturity Date to September 30, 2016 (the “Amended Maturity Date”), (2) revising the Subsequent Maturity Date to September 30, 2018 (the “Amended Subsequent Maturity Date”), (3) providing the Company with a prepayment right with its common stock, subject to remitting in cash the required cash payments set forth below and a minimum common stock price of \$4.50 per share and (4) requiring interim scheduled payments. Scheduled principal payments (including amortization of imputed interest) are as follows:

Payment Date	Payment Amount	Amount Payable in Cash (i)	Amount Payable in Cash with Restrictions (ii)	Amount Payable in Stock (iii)
December 24, 2013	\$ 1,500,000	\$ 1,500,000	\$ -	-
January 31, 2015	\$ 750,000	\$ 500,000	\$ 250,000	250,000
January 31, 2016	\$ 750,000	\$ -	\$ 750,000	750,000
September 30, 2016	\$ 4,377,432	\$ -	\$ -	4,377,432

- (i) \$1,500,000 was paid prior to December 31, 2013.
- (ii) Amounts payable in cash with restrictions are subject to BHI approving the cash payment. If BHI does not approve the cash payment, the amount shall be payable in shares of common stock subject to the provisions described above.
- (iii) This includes the last payment on the Amended Maturity Date and may include amounts payable in cash with restrictions whereby BHI provides approval and the amount would be paid with the Company's common stock. Amounts payable with the Company's common stock shall be subject to the provisions described above.

The stated interest rate of the Seller Note remains at 0.25%. Management has determined that the Company's expected borrowing rate as of the date of the amendment was 6.44%. Based on the revised payment schedule and the change in the Company's expected borrowing rate, the Company has increased the Seller note discount by \$337,000, and accordingly reduced the carrying value of the Seller Note. Management has determined that the amendment to the Seller Note was in conjunction with an amendment to the contingent obligation to IM Ready (the "Earn-out Obligation") and the reduction to the carrying value of the Seller Note was recorded as part of the gain on reduction of contingent obligations in the Company's December 31, 2013 consolidated statement of operations.

For the Current Year and the Prior Year, the Company incurred interest expense of \$617,000 and \$579,000, respectively, which includes amortization of the Seller Note discounted balance of \$576,000 and \$541,000, respectively. The Seller Note balance, net of discount, at December 31, 2013 and December 31, 2012 was \$5,045,000 and \$6,306,000, respectively.

Contingent Obligations

Earn-out obligation

The Earn-Out Obligation allows IM Ready to earn additional shares of common stock with a value of up to \$7,500,000 (the "Earn-Out Value") for the 12-month period ending September 30, 2015, with the number of shares to be issued based upon the greater of (i) \$4.50 per share and (ii) the average stock price for the last twenty days in such period, and with such earn-out payment contingent upon the Isaac Mizrahi Business achieving the net royalty income target set forth below. IM Ready was eligible to earn additional shares of common stock for the fiscal year ended September 30, 2013 and 2012, but did not meet the minimum net royalty income target. In addition, on December 24, 2013, the Company and IM Ready amended the terms of the Earn-Out Obligation and eliminated the additional consideration for the fiscal year ending September 30, 2014 and the Company agreed to make a one-time cash payment of \$315,000 to IM Ready, which was made in March 2014. The Earn-Out Obligation is recorded as \$3.6 million and \$8.7 million as long-term debt at December 31, 2013 and December 31, 2012, respectively and \$0.3 million as a current liability, on the Company's consolidated balance sheets. The \$5.1 million and \$6.3 million reduction was recorded as a gain on reduction of contingent obligations in the Company's December 31, 2013 and 2012 consolidated statement of operations, respectively. The reduction in the Earn-Out Obligation for the Current Year was based on (1) the amendment eliminating any earn-out for fiscal year ending September 30, 2014 and (2) a revision of the timing of projected future net royalty income related to the Isaac Mizrahi brand, therefore reducing the probability of achieving the corresponding royalty target within the Earn-Out period. The reduction in the Earn-Out Obligation for the Prior Year was based on a revision of the timing of projected future net royalty income within the earn-out period related to the Isaac Mizrahi brand, therefore diminishing the probability of achieving the corresponding royalty targets. Any future change in the Earn-Out Obligation will result in an expense or income in the period in which it is determined fair market value of the carrying value has changed. The royalty targets and percentage of the potential earn-out value are as follows:

ROYALTY TARGET PERIOD	ROYALTY TARGET	EARN-OUT VALUE
Royalty Target Period (October 1, 2014 to September 30, 2015)	\$ 24,000,000	\$ 7,500,000

IM Ready will receive a percentage of the Earn-Out Value based upon the percentage of the actual net royalty income of the Isaac Mizrahi Business to the royalty target as set forth below.

APPLICABLE PERCENTAGE	% OF EARN-OUT VALUE EARNED
Less than 76%	0%
76% up to 80%	40%
80% up to 90%	70%
90% up to 95%	80%
95% up to 100%	90%
100% or greater	100%

The Earn-Out Value is payable solely in stock. In accordance with ASC Topic 480 "Distinguishing Liabilities from Equity", the earn-out obligation is treated as a liability in the accompanying consolidated balance sheets because of the variable number of shares payable under the agreement.

QVC Earn-Out

The QVC Earn-Out payment requires the Company to pay IM Ready \$2.8 million, payable in cash or common stock, at the Company's option, contingent upon the IM Brands receiving aggregate net royalty income of at least \$2.5 million from QVC in the twelve-month period ending September 30, 2015 with such stock based upon the greater of (x) \$4.50 per share, and (y) the average stock price for the last twenty days prior to the time of such issuance (the "QVC Earn-Out"). The current term of the QVC Agreement, as amended, runs through September 30, 2020. Management has determined that it is probable that the \$2.5 million in net royalty income from QVC will be met. In accordance with ASC Topic 480 "Distinguishing Liabilities from Equity", the QVC Earn-Out obligation is treated as a liability in the accompanying consolidated balance sheets because of the variable number of shares payable under the agreement. Management will assess no less frequently than each reporting period the status of this contingent obligation. Any change in the expected obligation will result in an expense or income in the period in which it is determined fair market value has changed.

As of December 31, 2013, the Earn-Out Obligation is \$3.9 million and the QVC Earn-Out is \$2.8 million, which combined is equal to \$6.7 million and represents the total contingent obligation to IM Ready. The total contingent obligation to IM Ready as of December 31, 2012 was \$11.5 million.

6. Stockholders' Equity

Private Offering of Equity Securities

On June 5, 2013 in a private offering to affiliates of an existing shareholder and a director of the Company, which are accredited investors, the Company issued and sold an aggregate of 1,428,573 shares of its common stock and Warrants to purchase an aggregate of 312,500 shares of the Company's common stock for aggregate gross proceeds of \$5,000,000 (the "Offering"). The Warrants are exercisable at a price of \$5.00 per share, at any time on or prior to June 5, 2018.

We concluded that there is a discounted component to the Offering as compared to the then market value of our common stock, primarily due to the limited liquidity in our shares. Based on the Company's analysis, the Company concluded that such discount was 10% and therefore grossed up the offering price based on the discount, resulting in a fair value of \$3.86 per common share.

The fair value for the Warrants was estimated \$.12 for each warrant to purchase one share of common stock using the Black-Scholes option-pricing model with the following weighted-average assumptions:

Expected Volatility (i)	22.5%
Expected Dividend Yield	0%
Expected Life Term (ii)	2.5
Risk-Free Interest Rate	0.39%

- (i) Due to the Company's limited trading activity, the Company used the average volatility of similar companies in its industry.

- (ii) Due to the Company's limited history, the expected life of options was calculated using the 'simplified method' in accordance with Staff Accounting Bulletin ("SAB") Topic 14.02 in accordance with SAB No. 110.

The proceeds of the Offering were accounted for as the par value of the common stock (\$.001 per share) issued and the balance (\$3.499 per share) as additional paid in-capital, inclusive of the value of the Warrants.

2011 Equity Incentive Plan

The Company's 2011 Equity Incentive Plan, as amended and restated (the "Plan") is designed and utilized to enable the Company to offer its employees, officers, directors, consultants and others whose past, present and/or potential contributions to the Company have been, are or will be important to the success of the Company, an opportunity to acquire a proprietary interest in the Company. A total of 5,000,000 shares of common stock are eligible for issuance under the Plan. The Plan provides for the grant of any or all of the following types of awards: stock options, restricted stock, deferred stock, stock appreciation rights and other stock-based awards. The vesting date of 37,500 shares of restricted stock was May 15, 2013, provided however, the grantee has the right to extend the vesting date by six-month increments in his sole discretion, prior to the date the restrictions would lapse. The vesting date of 37,500 shares of restricted stock is May 15, 2014, provided however, the executive has the right to extend the vesting date by six-month increments in his sole discretion, prior to the date the restrictions would lapse. As of December 31, 2013, restrictions on 827,776 shares have lapsed and 322,224 restricted shares are scheduled to vest on May 15, 2014. The Company repurchased 153,896 and 218,163 shares of restricted stock upon vesting of restricted stock in satisfying the grantees' tax withholding obligation on November 15, 2013 and November 15, 2012, respectively, at a price of \$3.86 and \$3.00 per share, respectively.

On May 1, 2012, the Company granted options to purchase an aggregate of 105,500 shares of common stock to non-executive employees of the Company. The exercise price per share of the options is \$3.00 per share, and 50% of the options will vest on each of the first and second anniversaries of the grant date. Of these awards, 1,500 and 26,750 options were forfeited in 2013 and 2012, respectively, and reverted to, and are eligible for re-grant under the Plan. As of December 31, 2013, no vested shares have been exercised.

On June 1, 2012, the Company issued to non-management directors 138,335 shares of restricted stock. The vesting date of 138,335 shares of restricted stock was December 1, 2013, provided, however, that each such grantee has the right to extend the vesting date by six-month increments in his sole discretion, prior to the date the restrictions would lapse. As of December 31, 2013, restrictions on 88,863 shares have lapsed and 49,472 restricted shares are scheduled to vest on June 1, 2014. The Company repurchased 7,272 and 18,870 shares of restricted stock upon vesting of restricted stock in satisfying the grantees' tax withholding obligation on December 1, 2013 and December 1, 2012, respectively, at a price of \$3.86 and \$3.00 per share, respectively.

On June 1, 2012, the Company issued to management 256,608 shares of restricted stock. The vesting date of 256,608 shares of restricted stock is June 1, 2014, provided, however, that each such grantee has the right to extend the vesting date by six-month increments in his sole discretion, prior to the date the restrictions would lapse.

On April 1, 2013, the Company issued to management and employees 1,270,000 shares of restricted stock. The vesting date of 1,075,000 shares of restricted stock is March 31, 2014, provided, however, that each such grantee has the right to extend the vesting date by six-month increments in his sole discretion, prior to the date the restrictions would lapse. The remaining 195,000 shares of restricted stock will vest evenly over two years, whereby 50% shall vest on March 31, 2014 and 50% shall vest on March 31, 2015. Notwithstanding the foregoing, each grantee may extend the first anniversary of all or a portion of the restricted shares by six months and, thereafter one or more times may further extend such date with respect to all or a portion of the restricted shares until the next following September 30th or March 31st, as the case may be, by providing written notice of such election to extend such date with respect to all or a portion of the restricted shares prior to such date.

On April 1, 2013, the Company issued to non-management directors 100,000 shares of restricted stock. The shares of restricted stock will vest evenly over two years, whereby 50% shall vest on March 31, 2014 and 50% shall vest on March 31, 2015. Notwithstanding the foregoing, each grantee may extend the first anniversary of all or a portion of the restricted shares by six months and, thereafter one or more times may further extend such date with respect to all or a portion of the restricted shares until the next following September 30th or March 31st, as the case may be, by providing written notice of such election to extend such date with respect to all or a portion of the restricted shares prior to such date.

On May 1, 2013, the Company issued to non-executive employees 29,750 shares of restricted stock. The shares of restricted stock will vest evenly over two years, whereby 50% shall vest on April 30, 2014 and 50% shall vest on April 30, 2015.

Stock Options and Warrants

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility.

The fair value for these options and Warrants was estimated at the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

	Year Ended December 31, 2013	Year Ended December 31, 2012
Expected Volatility (i)	21-22%	39-40%
Expected Dividend Yield	0%	0%
Expected Life (Term) (ii)	1-3 years	4-5 years
Risk-Free Interest Rate	0.21 – 0.39%	0.70% - 0.80%

- (i) Due to the Company's limited trading activity, the Company used the average volatility of companies in its industry.
- (ii) Due to the Company's limited history, the expected life of options was calculated using the 'simplified method' in accordance SAB Topic 14.02 in accordance with SAB No. 110.

Stock Options

The options that the Company granted under the Plan expire at various times, either five, seven or ten years from the date of grant, depending on the particular grant.

Summary of the Company's stock options for the years ended December 31, 2013 and 2012 are as follows:

	Options	Weighted-Average Exercise Price
Outstanding at January 1, 2012	267,125	\$ 5.00
Granted	105,500	3.00
Canceled	-	-

Exercisable at December 31, 2013	304,500	\$ 4.75

The preceding table does not include options to purchase 576 shares of common stock for \$728 per share issued under the Company's former equity plan. The Company does not expect to issue any equity awards under this plan.

The weighted average grant date fair value per share of options granted during the year ended December 31, 2012 was \$0.99.

The weighted average contractual term (in years) of options outstanding as of December 31, 2013 and 2012, were 3.60 and 4.61 respectively. The weighted average contractual term (in years) of options exercisable as of December 31, 2013 and 2012, were 3.08 and 4.03 respectively.

The aggregate intrinsic value is calculated as the difference between the market price of the Company's common stock as of December 31, 2013 and the exercise price of the underlying options. At December 31, 2013 and 2012, the aggregate intrinsic value of options outstanding was zero. In addition, at December 31, 2013 and 2012, the aggregate intrinsic value of options exercisable was zero. There were no unamortized stock options as of December 31, 2013. There were no options exercised for the year ended December 31, 2013 and 2012.

Compensation expense related to stock option grants for the year ended December 31, 2013 and 2012 was \$69,000 and \$65,000, respectively. An additional \$13,000 is expected to be expensed through April 30, 2014.

A summary of the Company's Warrants for the years ended December 31, 2013 and 2012 is as follows:

Compensation expense related to Warrants grants for the years ended December 31, 2013 and 2012 was \$33,000 and \$44,000, respectively.

The Company values other Warrants issued to non-employees at the commitment date at the fair market value of the instruments issued, a measure which is more readily available than the fair market value of services rendered, using the Black-Scholes model. The fair market value of the instruments issued is expensed over the vesting period.

On January 23, 2012, we issued to a licensee Warrants to purchase 75,000 shares of common stock with an exercise price of \$5.50 per share and a term of 5-years. Compensation expense related to Warrants in connection with the licensing agreement is amortized over the 5-year initial term of the license agreement and is recorded as a discount to licensing revenues. The stock-based licensing revenue discount for each of the years ended December 31, 2013 and 2012 was \$5,000. An additional amount of \$13,000 is expected to be amortized over a period of 33 months from January 1, 2014 through September 30, 2016.

On June 5, 2013, in connection with the Offering we issued Warrants to purchase 312,500 shares of common stock with an exercise price of \$5.00 per share and a term of 5-years.

On October 4, 2013, we issued to Adam Dweck ("AD"), who is an Executive Vice President of Earthbound, LLC ("Earthbound") and the son of Jack Dweck, who is a principal of Earthbound and is on the Company's board of directors, Warrants to purchase 25,000 shares of common stock at an exercise price of \$5.00 per share. The Warrants were in connection with performance targets under a licensing agent agreement with AD. See Note 11, Related party Transactions. These Warrants expire on August 2, 2016. On October 4, 2013, 12,500 Warrants vested and 12,500 vest upon achieving the second performance target. See Note 11, Related Party Transactions.

Restricted Stock

Compensation cost for restricted stock is measured using the fair value of the Company's common stock at the date of the grant. The compensation cost, net of projected forfeitures, is recognized over the period between the grant date and the date any restrictions lapse, with compensation cost for grants with a graded vesting schedule recognized using the treasury method. The restrictions do not affect voting and dividend rights.

A summary of the Company's restricted stock for the year ended December 31, 2013 and 2012 is as follows:

	Restricted Shares	Weighted- Average Grant Date Fair value
Outstanding at January 1, 2012	17,125	\$ 3.34

Dividends

The Company has not paid any dividends to date.

7. Earnings Per Share

Basic earnings per share includes no dilution and is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflect, in periods in which they have a dilutive effect, the effect of restricted stock-based awards and common shares issuable upon exercise of stock options and Warrants using the treasury stock method. The difference between basic and diluted weighted-average common shares results from the assumption that all dilutive stock options and Warrants outstanding were exercised and have been converted into common stock.

For the Current Year, 265,875 shares issuable upon exercise of options and 886,050 shares issuable upon exercise of Warrants were excluded from the calculation of earnings per share because they were anti-dilutive. For the Prior Year, 345,000 shares issuable upon exercise of options and 548,550 shares issuable upon exercise of Warrants were excluded from the calculation of earnings per share because they were anti-dilutive.

A reconciliation of shares used in calculating basic and diluted earnings per share follows:

	Year Ended December 31, 2013	Year Ended December 31, 2012
Basic	9,193,101	6,936,452
Effect of exercise of options and Warrants	598,392	641,109
Diluted	<u>9,791,493</u>	<u>7,577,561</u>

8. Commitments and Contingencies

Leases

The Company leases office space and retail store space under operating lease agreements that expire at various dates through March 31, 2016. The majority of the lease obligations are related to the Company's main headquarters located in New York City, which lease expires February 2016. Future minimum lease payments under the terms of these noncancelable operating lease agreements are as follows:

	Lease Payments
Year ending December 31, 2014	\$ 721,000
Year ending December 31, 2015	751,000
Year ending December 31, 2016	119,000
Total future noncancelable minimum lease payments	<u>\$ 1,591,000</u>

The corporate headquarters' lease requires the Company to pay additional rents by virtue of increases in the base taxes and other costs on the property. In addition, retail store operating leases provide for additional bonus rent based on a percentage of annual retail sales in excess of targeted levels. Additional rents have not been material. Total rent expense was \$708,000 and \$619,000 for the years ended December 31, 2013 and 2012, respectively.

The Company has contracts with certain executives and key employees. The future minimum payments under these contracts are:

	Employment Contract Payments
Year ending December 31, 2014	\$ 2,472,000
Year ending December 31, 2015	1,128,000
Year ending December 31, 2016	834,000
Total future minimum employment contract payments	<u>\$ 4,434,000</u>

In addition to the employment contract payments stated above, the Company's employment contracts with certain executives and key employees contain performance based bonus provisions. These provisions include bonuses based on the Company achieving revenues in excess of established targets and/or on operating results.

9. Income taxes

The Company accounts for income taxes in accordance with ASC Topic 740. Deferred tax assets and liabilities are determined based on differences between the financial reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. A valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized. In determining the need for a valuation allowance, management reviews both positive and negative evidence pursuant to the requirements of ASC Topic 740, including current and historical results of operations, future income projections and the overall prospects of the Company's business.

The income tax provision (benefit) for Federal and state and local income taxes in the consolidated statements of operations consists of the following:

	Year Ended December 31,	
	2013	2012
Current:		
Federal	\$ (110,000)	\$ 109,000

Total provision (benefit)	<u>\$ (1,402,000)</u>	<u>\$ (766,000)</u>

The reconciliation of income tax computed at the Federal and state statutory rate to the Company's income before taxes are as follows:

The significant components of net deferred tax liabilities of the Company consist of the following:

	December 31, 2013	December 31, 2012
Deferred tax assets		
Federal state and local net operating loss carryforwards	\$ 70,000	\$ -
Property and equipment	117,000	34,000

The Company has available at December 31, 2013 and December 31, 2012, approximately \$207,000 and \$0, respectively, of unused U.S. Federal and state and local net operating loss carryforwards that may be applied against future taxable income.

During the Current Year, the Company recorded a \$5.1 million gain on the reduction of contingent obligations related to the acquisition of IM Ready. This gain is not subject to U.S. Federal income tax. See Note 5, Debt.

As of December 31, 2013 and 2012, management does not believe the Company has any material uncertain tax positions that would require it to measure and reflect the potential lack of sustainability of a position on audit in its consolidated financial statements. The Company will continue to evaluate its uncertain tax positions in future periods to determine if measurement and recognition in its consolidated financial statements is necessary. The Company does not believe there will be any material changes in its unrecognized tax positions over the next year.

10. Segment Information

Since the Company opened its first retail store in June 2013, it operates in two segments - (1) Design and Licensing, and (2) Retail, which are based on its business activities and organization. The operating segments are segments of the Company for which separate discrete financial information is available and for which operating results are evaluated regularly by the chief operating decision makers, made up of the Company's executive management team, in deciding how to allocate resources, as well as in assessing performance. The primary key performance indicators are net sales or revenue (in the case of licensing and design fees) and operating income for each segment. The design and licensing segment includes royalties earned on licensed products and use of the Company's trademarks, and rights granted to third parties for the right to sell the Company's products and related design and other service fees. The retail segment represents sales of Isaac Mizrahi New York branded products through its retail store. All intercompany revenues are eliminated in consolidation and are not reviewed when evaluating segment performance. Corporate overhead expenses are allocated to the segments based upon specific usage or other allocation methods.

The following table presents the key performance information of the Company's reportable segments:

11. Related Party Transactions

Todd Slater

On September 29, 2011, the Company entered into an agreement which was amended on October 4, 2011, with Todd Slater, who was appointed as a director of the Company commencing on October 17, 2011, for services related to the Company's licensing strategy and introduction of potential licensees. During the term of the agreement or during the year following the expiration of the term of the agreement, if the Company enters into a license or distribution agreement with a licensee introduced by Mr. Slater, Mr. Slater was entitled to receive a commission equal to fifteen percent (15%) of all net royalties received by the Company during the first term of such agreement, payable within thirty days of receipt of the net royalties.

On July 10, 2012, the Company and Mr. Slater entered into an amendment (the "Amendment") to the agreement. Pursuant to the Amendment, the Company paid to Mr. Slater \$163,000 as payment in full for (i) the cancellation of all amounts which are or may otherwise become due or payable to Mr. Slater under the terms of the agreement for licensees already introduced to the Company by Mr. Slater and which Mr. Slater was entitled to fifteen percent (15%) of the revenues from such licensees under the agreement, and (ii) the assignment to the Company of all such amounts payable directly to Mr. Slater pursuant to such license agreements. The Company has capitalized this payment and amortizes the expense in accordance with the revenue earned from the respective licensing agreements on which this payment was based upon.

The Company incurred direct licensing costs with Mr. Slater from amortization of the one-time payment stated above and fees paid for the Current Year and the Prior Year of \$46,000 and \$31,000, respectively.

On June 5, 2013, the Company paid Threadstone Advisors, LLC ("Threadstone") a fee of \$280,000 for the placement of \$4,000,000 of proceeds from the Offering. See Note 6, Stockholders' Equity. This placement fee was recorded as a reduction in paid-in capital and reflected in the stockholders' equity section of the consolidated balance sheet. Mr. Slater is an officer and a 5% owner of Threadstone.

Licensing Agent Agreement

On August 2, 2011, the Company entered into a licensing agent agreement with AD, pursuant to which he is entitled to a five percent (5%) commission on any royalties we receive under any new license agreements that he procures for us during the initial term of such license agreements.

We are also obligated to grant to AD Warrants to purchase 12,500 shares of common stock at an exercise price of \$5.00 per share, subject to AD generating \$0.5 million of accumulated royalties and additional Warrants to purchase 12,500 shares of common stock at an exercise price of \$5.00 per share, subject to AD generating \$1.0 million of accumulated royalties. These Warrants expire on August 2, 2016. As of December 31, 2013, AD has reached the first milestone of \$0.5 million sourced royalties and the Company deems it likely that AD will reach the second milestone of \$1.0 million of AD sourced royalties by August 2, 2016. On October 4, 2013 the Company issued Warrants to AD to purchase 25,000 shares of common stock of which 12,500 vest immediately and 12,500 vest upon achieving the second milestone. The fair value of these Warrants was estimated at \$2,500 on the grant date using the Black-Scholes option pricing method, of which half has been recorded as a royalty commission expense in the Current Year and is recorded as a reduction of net licensing revenues on the consolidated statements of operations. The balance of the Warrants will be expensed evenly over the next 15 months, the period when the second milestone is estimated to occur. Additionally, AD shall be entitled to receive Warrants to purchase an additional 25,000 shares of common stock priced at the fair market value at the time of issuance, subject to AD generating \$2.0 million of accumulated royalties. These Warrants also all expire on August 2, 2016.

The Company incurred direct licensing costs with AD of \$20,000 and \$13,000 for the Current Year and the Prior Year, respectively.

12. Subsequent Events

Acquisition of the Judith Ripka Trademarks

On April 3, 2014, JR Licensing, LLC, a wholly-owned subsidiary of Xcel (“JR Licensing”) entered into an asset purchase agreement dated April 1, 2014 (the “Purchase Agreement”) with Judith Ripka Berk (“Ms. Ripka”), an individual, and certain companies owned by Ms. Ripka including Judith Ripka Creations (collectively “Ripka”), pursuant to which JR Licensing purchased from Ripka certain assets, including the Judith Ripka and Judith Ripka Sterling trademarks and other intellectual property rights (the “Ripka Brand”). On the closing date of the acquisition, the Company paid Ripka \$12.0 million in cash, \$6.0 million through the issuance of interest free notes payable (the “Ripka Notes”), and 571,429 shares of the Company’s stock. The Ripka Notes have a term of five years from the date of issuance, are payable in cash or shares of Xcel common stock valued at the time of payment, at the Company’s option, and with a floor price of \$7.00 per share if paid in stock, with Ripka having certain rights to extend the maturity of the Ripka Notes in the event the Company’s stock is trading at a price of less than \$7.00 per share. The Company is obligated to pay Ripka an additional \$1.0 million on October 1, 2014 and an additional \$1.2 million on April 1, 2015. In addition, the Company agreed to pay Ripka additional consideration of up to \$5 million in aggregate (the “Ripka Earn-out”), payable in cash or shares of the Company’s common stock based on the fair market value of our common stock at the time of payment, and with a floor of \$7.00 per share, based on the Ripka Brand achieving in excess of \$1 million of net royalty income during each of the 12-month periods beginning on October 1, 2015 and ending on October 1, 2018, less the sum of all earn out payments for any prior earn-out period. Net royalty income shall not include any revenues generated by direct-response television sales or any revenue accelerated as a result of termination.

Concurrent with the acquisition of the Ripka Brand, the Company entered into (i) a license agreement with QVC, Inc. that provides for a royalty to be paid to the Company by QVC based on net sales of products under the Ripka Brand (the “JR/QVC Agreement”), and (ii) a license with an affiliate of Ripka that will design, source, market, and promote products under the Ripka Brand to wholesale accounts, through an e-commerce site which Xcel will operate, and through Ripka owned retail stores (the “Wholesale Business”). The license with the Wholesale Business will provide for a royalty payable to the Company based on its wholesale sale of products under the Ripka Brand. The Company issued to QVC a Warrant (the “QVC Warrant”) to purchase a number of shares of our common stock equal to (i) 4.75% of the number of shares of common stock of Xcel issued and outstanding on the date the QVC Warrant becomes exercisable less (ii) 571,429 shares of our common stock (subject to adjustment in the event of a stock split, combination, or stock dividend). The QVC Warrant is exercisable at a price of \$.001 per share and becomes exercisable only upon Judith Ripka becoming obligated to make a specified payment to QVC under the JR/QVC Agreement and remains exercisable until such obligation is satisfied in full.

Concurrent with the acquisition of the Ripka Assets, JR Licensing entered into a \$9 million 5-year term loan with BHI (the “JR Loan”). The JR Loan is secured by all of the assets of JR Licensing and a guarantee from Xcel secured by a pledge of Xcel’s membership interest in JR Licensing and by a guarantee from IM Brands, secured by a pledge of all of IM Brands’ assets. The JR Loan bears interest at an annual variable rate of either, LIBOR plus 3.5% or Prime plus 0.50%, at JR Licensing’s option, payable, if the JR Loan is bearing interest based on LIBOR, on the last business day of the applicable interest period and, if the JR Loan is bearing interest based on Prime, quarterly in arrears on the first day of each calendar quarter. Scheduled quarterly principal payments are as follows:

Date of Payment	Amount of Principal Payment
April 1, 2015, July 1, 2015, October 1, 2015 and January 1, 2016	\$ 375,000
April 1, 2016, July 1, 2016, October 1, 2016 and January 1, 2017	\$ 625,000
April 1, 2017, July 1, 2017, October 1, 2017 and January 1, 2018	\$ 750,000
April 1, 2018, July 1, 2018, October 1, 2018 and January 1, 2019	\$ 500,000

In addition, JR Licensing shall prepay the outstanding amount of the JR Loan from excess cash flow (“Cash Flow Recapture”) for each fiscal year commencing with the year ending December 31, 2015 in arrears in an amount equal to fifty percent (50%) of such Cash Flow Recapture. Cash Flow Recapture shall mean for any fiscal period, cash provided by operating activities for such period less (a) capital expenditures not made through the incurrence of indebtedness less (b) all interest and principal (including indebtedness owed for the JR Loan) paid or payable during such period less (c) the portion of the holdback amount paid or payable pursuant to the Purchase Agreement during such period less (d) payments made during such period by JR Licensing to Xcel equal to the estimated tax liability of Xcel resulting from any taxable income (net of losses, including for prior years to the extent permitted to be deducted) of JR Licensing. JR Licensing also executed a guaranty of our outstanding \$13 million loan with BHI, in favor of BHI, secured by a pledge of all of JR Licensing’s assets.

Financial Covenants. The Company is required to maintain;

- minimum fixed charge ratio, of 1.20 to 1.00 for the periods ending on or prior to December 31, 2015 and not less than 1.10 to 1.00 for periods commencing on and after March 31, 2016;
- minimum EBITDA (as defined in the BHI loan documents), not be less than \$5,500,000 for the fiscal year ending December 31, 2014, not less than \$7,500,000 for the fiscal year ending December 31, 2015, not less than \$11,000,000 for the fiscal year ending on December 31, 2016 and not less than \$12,000,000 for fiscal year ending December 31, 2017 and each fiscal year end thereafter;
- \$31 million minimum net worth;
- \$3 million minimum liquidity covenants;
- and other non-monetary covenants, including reporting requirements and trademark preservation in accordance with the terms and conditions of the JR Loan.

In addition, JR Licensing is required to maintain minimum EBITDA of \$3 million for the fiscal year ending December 31, 2014, not less than \$4 million for the fiscal year ending December 31, 2015 and not less than \$5 million for the fiscal year ending December 31, 2016 and each fiscal year end thereafter. EBITDA for JR licensing shall exclude allocated corporate overhead.

On April 1, 2014, the Company entered into a three-year employment agreement with Ms. Ripka such that she will serve as the Chief Design Officer of the Judith Ripka brand and perform duties and obligations under agreements with the Company's licensees or any other third party pursuant to which Ms. Ripka has agreed to, and is obligated to, perform personal services. Thereafter, the agreement will renew automatically for one-year periods, unless either party gives written notice of intent to terminate at least 30 days prior to such termination. Ms. Ripka's base salary is \$750,000 per annum, and Ms. Ripka is entitled to other benefits including (a) non-accountable expenses of \$114,000 per year, (b) \$1,000 per month for rent for her Florida office, (c) the employment of a personal assistant, and (d) first class travel expenses.

Bonus. Ms. Ripka shall be eligible to receive an annual cash bonus (the "Bonus") for each calendar year during the Term (or any partial fiscal year during the Term), equal to ten percent (10%) of the direct response television royalty income during such calendar year in excess of \$6 million.

The Ripka Brand acquisition will be accounted for as an asset purchase.

On April 3, 2014 and in conjunction with the Ripka Brand acquisition and entering into the JR Loan, the Company amended the New Loan. The amendments include:

Restricted Stock Grant

On January 1, 2014, the Company issued to management and a key employee an aggregate of 825,000 shares of restricted stock. The vesting date of 550,000 shares of restricted stock is July 1, 2014, and the remaining 275,000 shall vest evenly over the periods ending September 30, 2014, 2015 and 2016, provided, however, that each such grantee has the right to extend the vesting dates by six-month increments in their sole discretion, prior to the date the restrictions would lapse.

The fair value of the restricted shares on the grant date is approximately \$3.3 million, and the compensation expense will be recognized over the vesting periods without regard to extensions.

Executive Employment Amendment

Effective February 1, 2014, the Company entered into an employment agreement with Marisa Gardini (“Ms. Gardini”) superseding a three-year employment agreement with Ms. Gardini that was set to expire on September 29, 2014 (the “Previous Employment Agreement”). Item 14. Indemnification of Directors and Officers

Under Section 145 of the General Corporation Law of the State of Delaware, the registrant may indemnify its directors and officers against liabilities they may incur in such capacities, including liabilities under the Securities Act. The registrant's certificate of incorporation provides that, pursuant to Delaware law, its directors shall not be liable for monetary damages for breach of the directors' fiduciary duty of care to the registrant and its stockholders. This provision does not eliminate the duty of care, and in appropriate circumstances equitable remedies such as injunctive or other forms of non-monetary relief will remain available under Delaware law. In addition, each director will continue to be subject to liability for breach of the director's duty of loyalty to the registrant or its stockholders for acts or omissions not in good faith or involving intentional misconduct or knowing violations of the law, for actions leading to improper personal benefit to the director, and for payment of dividends or approval of stock repurchases or redemptions that are unlawful under Delaware law. The provision also does not affect a director's responsibilities under any other law, such as the federal securities laws or state or federal environmental laws.

The registrant's bylaws provide for the indemnification of its directors to the fullest extent permitted by the Delaware General Corporation Law. The registrant's bylaws further provide that its Board of Directors has discretion to indemnify its officers and other employees. The registrant is required to advance, prior to the final disposition of any proceeding, promptly on request, all expenses incurred by any director or executive officer in connection with that proceeding on receipt of an undertaking by or on behalf of that director or executive officer to repay those amounts if it should be determined ultimately that he or she is not entitled to be indemnified under the bylaws or otherwise. The registrant is not, however, required to advance any expenses in connection with any proceeding if a determination is reasonably and promptly made by its Board of Directors by a majority vote of a quorum of disinterested Board members that (i) the party seeking an advance acted in bad faith or deliberately breached his or her duty to the registrant or its stockholders and (ii) as a result of such actions by the party seeking an advance, it is more likely than not that it will ultimately be determined that such party is not entitled to indemnification pursuant to the applicable sections of the registrant's bylaws.

The registrant has been advised that in the opinion of the Securities and Exchange Commission, insofar as indemnification for liabilities arising under the Securities Act may be permitted to its directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable. In the event a claim for indemnification against such liabilities (other than the registrant's payment of expenses incurred or paid by a director, officer or controlling person in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by the registrant is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The registrant carries directors' and officers' liability insurance covering its directors and officers for a period of one year commencing on October 2010. The limit of liability of such insurance is \$5,000,000 in the aggregate for the insured period.

The registrant is a party to indemnification agreements with each of its directors and officers that are, in some cases, may be broader than the specific indemnification provisions permitted by Delaware law, and that may provide additional procedural protection. Such indemnification agreements may require the registrant, among other things, to indemnify officers and directors against certain liabilities that may arise because of their status as officers or directors and advance expenses, as incurred, to officers and directors in connection with a legal proceeding, subject to limited exceptions.

Item 15. Recent Sales of Unregistered Securities

On June 5, 2013, the Company issued an aggregate of 1,428,573 shares of common stock and warrants to purchase 312,500 shares of common stock to two investors, including one director.

During May 2012, we issued an aggregate of 162,500 shares of common stock upon exercise of warrants to five executive officers and one director and their affiliates.

Such securities were not registered under the Securities Act. The issuance of these securities was exempt from registration under the safe harbor provided by Section 4(2) of the Securities Act. We made this determination based on the representations of the warrant holders, which included, in pertinent part, that such warrant holders were either (a) "accredited investors" within the meaning of Rule 501 of Regulation D promulgated under the Securities Act, or (b) not a "U.S. person" as that term is defined in Rule 902(k) of Regulation S under the Act, and upon such further representations from the warrant holders that (a) the warrant holder is acquiring the securities for his, her or its own account for investment and not for the account of any other person and not with a view to or for distribution, assignment or resale in connection with any distribution within the meaning of the Securities Act, (b) the warrant holder agrees not to sell or otherwise transfer the purchased shares unless they are registered under the Securities Act and any applicable state securities laws, or an exemption or exemptions from such registration are available, (c) the warrant holder has knowledge and experience in financial and business matters such that he, she or it is capable of evaluating the merits and risks of an investment in us, (d) the warrant holder had access to all of our documents, records, and books pertaining to the investment and was provided the opportunity to ask questions and receive answers regarding the terms and conditions of the offering and to obtain additional information which we possessed or were able to acquire without unreasonable effort and expense, and (e) the warrant holder has no need for the liquidity in its investment in us and could afford the complete loss of such investment. In addition, there were no general solicitation or advertising involved in the exercise of the warrants.

On January 23, 2012, we issued warrants to purchase 75,000 shares to a licensee in conjunction with a license agreement.

On December 7, 2011, we issued 50,000 shares of common stock to Earthbound in connection with the exercise of common stock purchase warrants at an exercise price of \$0.01 per share.

On October 21, 2011, the Company issued options to certain employees to purchase an aggregate of 17,125 shares of common stock.

On October 21, 2011, the Company issued 17,125 shares of restricted common stock to employees.

On October 17, 2011, the Company issued options to our directors to purchase an aggregate of 250,000 shares of common stock.

On September 29, 2011, pursuant to the Merger, we issued 944,688 shares of common stock to the Old XCel stockholders in exchange for all of the outstanding shares of common stock of Old XCel.

On September 29, 2011, we issued 2,759,000 shares of common stock to IM Ready pursuant to the Purchase Agreement as partial consideration for the Isaac Mizrahi Business.

On September 29, 2011, we issued 944,688 shares of common stock to Earthbound in connection with the Contribution Agreement pursuant to which Earthbound contributed to us (i) the Earthbound Agreement and (ii) the Earthbound Assets.

On September 29, 2011, we issued seven-year Lender Warrants to purchase an aggregate of 364,428 shares of common stock with an exercise price of \$0.01 per share to the Lenders in connection with the Loan.

On September 29, 2011, the Company issued options and warrants to certain of our directors, executive officers, employees and licensing agents to purchase an aggregate of 463,750 shares of common stock.

On September 29, 2011, we issued 47,132 shares of common stock to the designee of Stephen Cole-Hatchard in connection with the Merger Agreement.

None of the above referenced issuances were registered under the Securities Act and all of the above referenced issuances qualified for exemption under Section 4(2) of the Securities Act since the issuance securities by us did not involve a public offering. The offering was not a "public offering" as defined in Section 4(2) due to the insubstantial number of persons involved, size of the offering, manner of the offering and number of securities offered. We did not undertake an offering in which we sold a high number of securities to a high number of investors. In addition, these stockholders had the necessary investment intent as required by Section 4(2) since they agreed to and received share certificates bearing a legend stating that such securities are restricted pursuant to Rule 144 of the Securities Act. This restriction ensures that these securities would not be immediately redistributed into the market and therefore not be part of a "public offering." Based on an analysis of the above factors, we have met the requirements to qualify for exemption under Section 4(2) of the Securities Act for this transaction.

On September 29, 2011, pursuant to a securities purchase agreement, we completed the closing of the Private Placement of our securities for total subscription proceeds of \$4,305,000 through the issuance of (i) 861,000 shares of our common stock at a price of \$5.00 per share and (ii) five-year warrants for the purchase of a total of 1,848,502 shares of common stock at an exercise price of \$0.01 per share, to certain accredited investors. We also issued to Rodman & Renshaw, LLC, as placement agent, five-year warrants to purchase 9,800 shares of common stock at an exercise price of \$5.50 per share.

Such securities were not registered under the Securities Act. The issuance of these securities was, and the issuance of the shares of common stock upon exercise of the warrants will be, exempt from registration under the safe harbor provided by Section 4(2) of the Securities Act. We made this determination based on the representations of investors (which representations the investors are required to confirm in connection with the exercise of the warrants by completing and executing the notice of exercise of warrants), which included, in pertinent part, that such investors were either (a) “accredited investors” within the meaning of Rule 501 of Regulation D promulgated under the Securities Act, or (b) not a “U.S. person” as that term is defined in Rule 902(k) of Regulation S under the Act, and upon such further representations from the investors that (a) the investor is acquiring the securities for his, her or its own account for investment and not for the account of any other person and not with a view to or for distribution, assignment or resale in connection with any distribution within the meaning of the Securities Act, (b) the investor agrees not to sell or otherwise transfer the purchased shares unless they are registered under the Securities Act and any applicable state securities laws, or an exemption or exemptions from such registration are available, (c) the investor has knowledge and experience in financial and business matters such that he, she or it is capable of evaluating the merits and risks of an investment in us, (d) the investor had access to all of our documents, records, and books pertaining to the investment and was provided the opportunity to ask questions and receive answers regarding the terms and conditions of the offering and to obtain any additional information which we possessed or were able to acquire without unreasonable effort and expense, and (e) the investor has no need for the liquidity in its investment in us and could afford the complete loss of such investment. In addition, there was no general solicitation or advertising involved in sale of securities.

Item 17. Undertakings

(A) The undersigned Registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement to:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the “Calculation of Registration Fee” table in the effective registration statement; and
 - (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.
- (2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering

(B) The issuer is subject to Rule 430C (ss. 230. 430C of this chapter): Each prospectus filed pursuant to Rule 424(b)(ss. 230. 424(b) of this chapter) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A (ss. 230. 430A of this chapter), shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(C) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the undersigned Registrant pursuant to the foregoing provisions, or otherwise, the undersigned has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the undersigned of expenses incurred or paid by a director, officer or controlling person of the undersigned in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the undersigned will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
